There are two ways to bid in our auctions:

**ONLINE AT [WWW.TAX-SALE.INFO](http://WWW.TAX-SALE.INFO)**

**-or-**

**ABSENTEE BID**

(For those who have *no* computer access. Please call for assistance)

For **registered users**, our website features:

- **Photos** and detailed descriptions of properties (where available)
- **GPS/GIS** location of the property
- **Maps** of the property vicinity (where available)
- **Google Maps links** to satellite images of the area and street views of the property and neighborhood (where available)
- **Save properties** to your personalized “favorites” list
- **Personalized Auction Feed** with live updates on parcels in which you have placed a bid(s)

We have a short window to review several thousand parcels prior to listing them on our website. We began inspecting properties in May and release catalogs county by county as they become available. Please be patient and **check back often** for updates. Parcels are sold "as is" based on the assessed legal description only. All other information in this salebook or listed on our website, though reliable to the best of our knowledge, is provided as unverified reference and is not guaranteed to be accurate. You should verify this information with your own research and investigation prior to bidding.

# Visiting and viewing property BEFORE auction:

The auction list furnished in this salebook contains property that *may* be offered. Please keep checking the catalog on our website as the auction date approaches as some parcels may be removed from the list for a variety of reasons.

**You are NOT AUTHORIZED to enter any buildings**, even if they are unlocked or open to access. Entering a tax auction property to “see it” is considered breaking and entering (a criminal offense). Please limit your review to looking through the windows and other external inspections. We will post exterior and interior photos on the website and provide other commentary whenever possible.

Entering properties (even vacant land) can be dangerous due to unknown conditions of structures and land. **You assume all liability for injuries and other damage** if you choose to visit these lands.

Properties may be occupied or “being watched” by former owners or neighbors sympathetic with former owners. Occupants are often unknown and could potentially be volatile, unstable or “anti- government” persons. Even vacant land presents potential for conflict.

Some properties still contain the personal property of former owners (including vehicles, furnishings, appliances etc). These items are not sold at our auctions. We are only selling the real estate (land) and whatever is attached to it (buildings and other permanent fixtures).

- **You are not authorized to remove ANY “personal” property, “scrap” metal or fixtures from auction parcels. This is considered theft and will be prosecuted.** We often ask neighbors to watch property for theft and vandalism and report this to local police.
- **Property is sold “as-is” in every respect.** Please check zoning, building code violation records, property boundaries, condition of buildings and all local records available to the public.
- **There are no refunds and no sale cancellation at the buyer’s request.**
- **Information offered on the website or in the salebook is deemed reliable but is not guaranteed.** We suggest reviewing the records of the local assessor’s office to be sure that what we are selling is what you think it is. **We sell by the legal description only.**
- **You should consider obtaining professional assistance** from land surveyors, property inspection companies or others if you have questions about property attributes.

**PLEASE REMEMBER that property lists can change up to the day-of-auction.**

# Paying for your Auction Purchases

- **The full purchase price must be paid in full within 5 business days of the sale.** No purchases can be made on a time-payment plan.
- No cash or personal checks will be accepted.
- All payments must be made with a **Credit/Debit Card, Wire Transfer, or by certified (cashier's) check.**
- Your sale is not complete until we've received both your payment and your notarized receipt and buyer's affidavit paperwork. This is also due 5 business days from the date of the sale.
- When mailing in your paperwork (especially with a certified check), please use a trackable service like Priority Mail, FedEx, or UPS to ensure timely, verified delivery.

## Bidding Authorization

- Online and absentee bidding requires a **\$1,000 pre-authorization hold** on a Visa, MasterCard, or Discover credit card before any bids will be accepted. Alternatively, bidders can mail in a \$1,000 certified funds deposit if a credit card is unavailable. A buyer's failure to consummate an online or absentee purchase will result in the forfeiture of this \$1,000.
  - *Your card is not charged unless you win, however the hold may reduce your available credit until it is released by your credit card issuer (usually 30 days).*

## Absentee bidding

- If you do not have internet access, **you can submit an absentee bid by calling us.** You will still need to pre-authorize a \$1000 deposit on a major credit card (or mail in a \$1000 certified check deposit). Contact us at 1-800-259-7470 for more information.
  - *Your card is not charged unless you win, however the hold may reduce your available credit until it is released by your credit card issuer (usually 30 days).*

## Rules and Regulations

### 1. Registration

Registration will begin 30 minutes before the stated start time unless otherwise noted. No bids will be accepted unless the bidder has registered and received a pre-numbered bid card. A Driver's license, passport, or other state issued I.D. must be presented in order to receive a bid card.

### 2. Properties Offered

#### A. Overview

**"Foreclosing Governmental Unit" ("FGU")** is a term used by the Michigan tax foreclosure statute and is typically the office of the County Treasurer in the county where the offered property is located. However, in some instances the FGU is the State of Michigan Department of Treasury.

Unless otherwise noted, the "Seller" is the County Treasurer, acting as the "FGU".

The attached list of parcels has been approved for sale at public auction and each is identified by a sale unit number. The Seller reserves the right to pull parcels from the sale at any time prior to the auction.

According to state statutes, **ALL PRIOR** liens (other than certain DEQ liens and other limited exceptions), encumbrances and taxes **are cancelled** by Circuit Court Order. The FGU has attempted to include in the minimum bid, liens that have accrued since foreclosure, such as nuisance or water bills; **all other outstanding bills since foreclosure are the responsibility of the buyer**. These properties are subject to any state, county, or local zoning or building ordinances. The FGU does not guarantee the usability or access to any of these lands.

#### B. Know What You Are Buying

It is the **responsibility of the prospective purchaser to DO HIS OR HER OWN RESEARCH** as to the suitability of any offered property for any intended purpose. The FGU makes no warranty, guaranty or representation concerning, but not limited to, the merchantability of title, boundary lines, location of improvements, availability of land divisions, easements or right to access by public street, utility presence or location, or any other physical, structural, or legal condition.

Prospective buyers should, prior to the auction, **personally visit and inspect any offered property** they wish to purchase. However, prior to purchase at the auction, **STRUCTURES MAY NOT BE ENTERED** without the **WRITTEN PERMISSION** of the FGU. Some structures may be occupied and occupants should not be disturbed.

#### C. Reservations

At the sole option of the FGU, a reverter clause may be included in any deed issued to a winning bidder which prohibits the future severing of mineral rights (if any) and/or splitting/subdividing any purchased property into smaller parcels which do not meet local zoning rules or otherwise comply with applicable regulations relating to the splitting of property. If such a reverter clause is included, a violation thereof will result the property reverting to the FGU without refund.

Pursuant to state statutes, where the State of Michigan Department of Treasury is acting as FGU, deeds issued may contain the following reservations and stipulations:

- *"Excepting and reserving to the State of Michigan, all aboriginal antiquities including mounds, earthworks, forts, burial and village sites, mines or other relics and also reserving the right to explore and excavate for the same, by and through its duly authorized agents and employees, pursuant to the provisions of Part 761, Aboriginal Records and Antiquities, of the Natural Resources and Environmental Protection Act, Act 451 of the Public Acts of 1994, MCL 324.76101 to 324.76118 as amended."*
- *"Saving and reserving unto the People of the State of Michigan the rights of ingress and egress over and across all of the above-mentioned descriptions of land lying along any watercourse or stream, pursuant to the provisions of Part 5, Act 451, P.A. 1994, as amended, MCL 324.503, as amended."*

Additionally, the State may, in its discretion, reserve the mineral rights to offered property as follows:

- *"Saving and excepting and always reserving unto the said State of Michigan, all mineral, coal, oil and gas, lying and being on, within or under the said lands whereby conveyed, except sand, gravel, clay or other nonmetallic minerals with full and free liberty and power to the said State of Michigan, its duly authorized officers, representatives and assigns, and its or their lessees, agents and workmen, and all other persons by its or their authority or permission, whether already given or hereafter to be given at any time and from time to time, to enter upon said lands and take all usual, necessary, or convenient means for exploring, mining, working, piping, getting, laying up, storing, dressing, make merchantable, and taking away the said mineral, coal, oil and gas, except sand, gravel, clay or other nonmetallic minerals."*

If the State does not reserve mineral rights as described above, the State may nonetheless restrict the severance of mineral rights from offered property as follows:

- *"This conveyance hereby restricts the Grantee from severing oil, gas, mineral and other subsurface rights from the surface rights any time in the future. If the Grantee severs the subsurface rights from the surface rights, the subsurface rights will revert to the State of Michigan."*

### 3. Bidding

#### A. Overview

Generally, each sale unit will be offered separately and in the order appearing on the attached list. Sales are typically conducted both online and live on-site, simultaneously. The sale will be awarded to the individual bidding the highest amount equal to or greater than the starting bid by either method. Typically, the auctioneer will make available a list of parcels prior-to-sale and will provide an opportunity for on-site bidders to designate "parcels of interest" prior to the start of the sale. The auctioneer may skip over those parcels upon which no party has placed an online bid or designated as a parcel of interest prior to the start of the sale. **Parcels that do not have online bids and that have not been designated as parcels of interest prior to the start of the sale and in the manner prescribed by the auctioneer are not guaranteed to be offered.** The auctioneer, in their sole discretion, may offer a second request round of unsold parcels after the first round of bidding has been completed at the minimum bid sale only. Such second request round will be available to those online and on-site bidders as may be in attendance at that time.

#### B. Starting Bid Price

The starting bid prices are shown on the list included in the sale book. At auctions with a minimum bid, no sales can be made for less than the starting price indicated. The starting bid for no-minimum-bid sales will be at the discretion of the FGU or auctioneer.

However, any person who held an interest in a property offered for sale at the time a judgment of foreclosure was entered against such property **must pay at least minimum bid** for such property even if purchased at a no-minimum auction.

#### C. Bid Increments

Bids will **only** be accepted in the following increments:

<u>Bid Amount</u>	<u>Increment</u>
\$100 to \$999	\$ 50.00
\$1000 to \$9999	\$ 100.00
Over \$10,000	\$ 250.00

Floor bidders MUST bid in the same increments as online and absentee bidders. **We will not accept irregular bid increments** in fairness to online and absentee bidders.

#### D. Eligible Bidders

Any person who meets the following requirements may register as a bidder and receive a pre-numbered bid card:

- The person does not directly or indirectly hold more than a *de minimus* legal interest in any property with delinquent property taxes which is located in the county in which the person intends to purchase property.
- The person is not directly or indirectly responsible for any unpaid civil fines for a violation of any ordinance, including but not limited to any ordinance authorized by section 4I of The Home Rule City Act, 1909 PA 279, as amended, MCL 117.4I, in the local tax collection unit in which the person intends to purchase property.
- The person has not been banned or otherwise excluded by the FGU from participation in the public sale.

Any person unable to attend the sale can be represented at the sale by an agent or other representative with authority to bid and otherwise represent the person. However, any party utilizing an agent to bid on their behalf must still meet the above listed requirements. **The registered bidder is legally and financially responsible for all parcels bid upon whether acting on their own behalf or as the agent of another.**

#### E. Absentee Bidding

Absentee bids will be accepted in increments up to the amount that you pre-approve. Absentee bids require a \$1,000 pre-authorization on a major credit card or a \$1,000 deposit before the bid will be accepted. Absentee bids must be submitted 48 hours prior to the date of the auction by calling 1-800-259-7470. An absentee bid form is also available on [www.tax-sale.info](http://www.tax-sale.info). Additionally, absentee bids may be submitted up until one hour before the sale if submitted online.

#### F. Online Bidding

On-line bidding will be available on the day of the auction at [www.tax-sale.info](http://www.tax-sale.info).

#### G. Bids are Binding

An oral bid accepted at public auction is a legal and binding contract to purchase. No sealed bids will be accepted and the FGU reserves the right to reject any or all bids.

#### H. Limitations on Bidding

The FGU and auctioneer reserve the right to limit the number of bids placed per auction for any bidder or group or bidders for any reason.

#### I. Attempts to Bypass These Rules and Regulations

The FGU and auctioneer reserve the right to reject the bids of any bidder who appears to be acting on behalf of another person who is ineligible to bid on their own.

## 4. Terms of Sale

### A. Payment

- **Live On-Site Bidders**
  - **The full purchase price must be paid in full on the day of the sale, within half an hour of the end of the Auction.** No purchases can be made on a time-payment plan.
  - **NO CASH** will be accepted.
  - If the total purchase price is **less than \$1,000.00**, full payment may be made by certified check, personal check, money order, Visa, MasterCard, or Discover.
  - If the total purchase price is **greater than \$1,000.00**, a portion of the total purchase price must be paid by **certified funds** as follows:
    - If the total purchase price is **greater than \$1,000.00 but less than \$50,000.00**, **the first \$1,000.00 must be paid in certified funds.**
    - If the total purchase price is **\$50,000.00 or greater**, **the first \$5,000.00 must be paid in certified funds.**
  - **Any remaining balance** beyond the required certified funds may be paid by certified check, personal check, money order, Visa, MasterCard, or Discover.
- **Online & Absentee Bidders**
  - **The full purchase price must be paid in full WITHIN 5 DAYS OF THE SALE.** Payment may be made by certified funds, money order, Visa, MasterCard, Discover, or wire transfer. No purchases can be made on a time-payment plan.
  - Online and absentee bidding require a \$1,000 pre-authorization on a Visa, MasterCard, or Discover credit card or a \$1,000 deposit before any bids will be accepted. Buyer's failure to consummate an online or absentee purchase will result in the forfeiture of this \$1,000.

The full purchase price consists of the final bid price *plus* a buyer's premium of 10% of the bid price, any outstanding taxes due on the property including associated fees and penalties, and a \$30.00 deed recording fee. **Any portion of the purchase price paid by credit card will be assessed an additional fee of 2.75%.**

### B. Refund Checks

In some instances it may be necessary to refund to a buyer some or all of the payment tendered by such buyer. This can occur, for example, when a buyer tenders certified funds in an amount greater than their total obligation or if the sale is cancelled under any provision of these Rules and Regulations. Refund checks will be processed and mailed to buyer within approximately ten days of the time such refund becomes due to buyer. Buyer shall cash such refund check within 90 days of the date listed on such refund check. If buyer fails to cash such refund check within 90 days, such refund check shall become void and buyer shall forfeit any refunded amount.

### C. Dishonored Payment

A buyer whose payment is dishonored for any reason will forfeit any purchase price paid as follows:

- A buyer whose total purchase price was less than \$1,000.00 will forfeit any portion of the total purchase price tendered and not dishonored including any credit card chargebacks which are successfully reversed by Seller.
- A buyer whose total purchase price was greater than \$1,000.00 will forfeit that portion of their total purchase price which was required to be tendered in certified funds as required by part 4A above.

**Furthermore, the FGU may seek to prosecute any buyer whose payment is dishonored or who fails to consummate a purchase.**

Any buyer who fails to consummate a purchase will be banned from bidding at all future land auctions. The venue for litigation or arbitration resulting from any disputes or matters involving or arising out of bidding or purchases, whether online or on-site, shall be fixed as Kalamazoo County in the State of Michigan.

The buyer's premium is not subject to any broker fees. There are no co-brokerage or other fees or rebates available.

### D. Eligible Buyers

In order to take title to purchased property, each party that will be listed on the deed must meet **ALL of the following requirements at the time their winning bid is accepted:**

- i. The party does not directly or indirectly hold more than a *de minimus* legal interest in any property with delinquent property taxes which is located in the county in which the purchased property is located
- ii. The party is not directly or indirectly responsible for any unpaid civil fines for a violation of any ordinance, including but not limited to any ordinance authorized by section 4I of The Home Rule City Act, 1909 PA 279, as amended, MCL 117.4I, in the local tax collection unit in which the purchased property is located.
- iii. The party is not purchasing, for less than minimum bid, any property in which the party held an interest at the time a judgment of foreclosure was entered against such property nor is the party purchasing property, for less than minimum bid, on behalf of any other party who held such an interest.

At the time payment is tendered after the auction, the buyer will be required to execute an affidavit affirming, **under penalty of perjury**, that each party that the buyer desires to have listed on the deed to purchased property meets the above requirements.

The FGU **will not issue a deed** and the sale will be canceled if the buyer did not meet the above requirements at the time their bid was accepted, the buyer fails to execute this affidavit, or if any affirmations made in this affidavit are untrue. If the FGU is forced to cancel any sale due to the buyer's noncompliance with this provision, the buyer will **forfeit the first \$350 paid** on each parcel and any buyer's premium paid as liquidated damages for breach of contract by the buyer. Furthermore, the FGU may pursue **CRIMINAL PERJURY CHARGES** against any buyer who makes a false affirmation on the affidavit required under this or any other provision of these Rules and Regulations.

#### E. Sale to Entities

In order to ensure that individuals do not utilize legal entities to circumvent the sale and ownership restrictions contained in MCL 211.78m(2), the FGU will only sell property to legal entities under certain circumstances. Any buyer desiring to deed a purchased property to a legal entity must disclose the name and address of all officers, shareholders, partners, members, or other parties, regardless of title, who own any portion of that entity. However, such disclosure will not be required if one or more of the following exceptions are applicable:

- The Entity held a prior recorded interest in each purchased property.
- The Entity is a division, agency, or instrumentality of federal, state, or local government.
- The Entity is a Homeowners Association, Condo Association, or other such organization that exercises control over each purchased property.
- The Entity is a publicly traded company listed on a national securities exchange.
- The Entity is a nonprofit corporation and is qualified as tax exempt under IRC §501.

At the time payment is tendered after the auction, any buyer desiring to deed a purchased property to a legal entity will be required to execute an affidavit affirming, **under penalty of perjury**, that the entity is exempt from disclosure under one of the five exceptions listed above, or in the event that no exception is applicable, the names and addresses of all parties owning any portion of that legal entity.

#### F. Cancellation Policy

The FGU reserves the right **TO CANCEL ANY SALE, AT ANY TIME, FOR ANY REASON** prior to the issuance of the deed.

#### G. Property Transfer Affidavit

It is the responsibility of the buyer to file a **Property Transfer Affidavit** with the *assessor for the city or township* where the property is located **within 45 days of the transfer**. If it is not timely filed, a **penalty of \$5/day (maximum \$200)** applies. The information on this Property Transfer Affidavit is NOT CONFIDENTIAL.

### 5. Purchase Receipts

Successful bidders at the sale will be issued a receipt for their purchases upon payment. This receipt does not convey an interest in title to the purchased property unless and until a deed has been issued and recorded. Buyers will be entitled to deeds for the property descriptions identified by the sale unit numbers noted on the receipt unless the sale is cancelled under these Rules and Regulations or other statutory authority.

### 6. Title Being Conveyed

Quit-claim deeds will be issued conveying **only such title as received by the FGU through tax foreclosure**. Title insurance companies may or may not issue title insurance on properties purchased at this sale. The FGU makes no representation as to the availability of title insurance and the **unavailability of title insurance is not grounds for reconveyance to the FGU**. The purchaser may incur legal costs for Quiet Title Action to satisfy the requirements of title insurance companies in order to obtain title insurance.

### 7. Special Assessments

Special assessment installments through the most recent tax year are included in the starting bids. Seller has attempted to identify those parcels subject to special assessments with a note on the parcel detail page. Parcels sold are subject to property taxes for the entire current tax year, as well as current and future installments of any outstanding bonded assessments. All bidders should contact the appropriate city, village, or township offices to determine if there are any outstanding bonded assessments for future tax years on the properties being offered.

### 8. Possession of Property

#### A. Possession Pending Deed Delivery

It is recommended that the buyer DOES NOT take physical possession of any purchased property until a deed has been executed and delivered to the buyer. The buyer risks financial loss for any improvements or investments made on purchased property *before the delivery of a deed* in the event that the Foreclosing Governmental Unit exercises their right to cancel the sale. Until the buyer receives a deed, no activities should be conducted on the site other than:

##### I. Securing the Property

Buyer should take steps to protect their equity in purchased property **by securing vacant structures against entry and obtaining (homeowners) insurance for occupied property**. Buyer is responsible for contacting local units of government **to prevent possible demolition of structures situated on purchased property**.

##### II. Assessing Potential Contamination

Buyer may immediately wish to conduct a Baseline Environmental Assessment (BEA) to assess the condition of potentially contaminated properties. More information about BEAs can be found at [http://www.michigan.gov/deq/0,4561,7-135-3311\\_4109\\_4212---,00.html](http://www.michigan.gov/deq/0,4561,7-135-3311_4109_4212---,00.html)

## B. Occupied Property

**Buyers will be responsible for all procedures and legal requirements for conducting evictions.** Occupants of purchased property should be treated as tenants holding over under an expired lease. This means that legal eviction and/or possession proceedings will be necessary to effectuate control over such property if occupants will not otherwise leave voluntarily. You may wish to consult a licensed attorney for additional guidance.

## 9. Conditions

The purchaser accepts the premises in its present "as is" condition, and releases the Foreclosing Governmental Unit and employees and agents from all liability whatsoever arising from any condition of the premises, whether now known or subsequently discovered, including but not limited to all claims based on environmental contamination of the premises.

A person who acquires property that is contaminated (a "facility" pursuant to Section 20201(1)(1) of Natural Resources and Environmental Act (NREPA), 1994 P.A. 451, as amended) as a result of release(s) of a hazardous substance(s) may become liable for all costs of cleaning up the property and any other properties impacted by the release(s). Liability may be imposed upon the person acquiring the property even in the absence of any personal responsibility for, or knowledge of, the release. Protection from such liability may be obtained by conducting a Baseline Environmental Assessment (BEA) as provided for under Section 20126(1) (c) of NREPA. However, the BEA must be conducted prior to or within 45 days of the earliest date of purchase or occupancy of the property. Persons who acquire contaminated property may have "due care" obligations under Section 20107a of NREPA even if they conduct a BEA and are not liable for the contamination.

Pursuant to part 201 of NREPA, the person(s) responsible for an activity causing a release at the property is obligated to pursue response activities at the property. Consequently, the non-labile purchaser may be required to provide access to the liable party to conduct response activities at the property in the future. Section 20116 of the NREPA requires that a person who has knowledge that their property is contaminated provide a written notice to the purchaser or other person to whom the property is transferred which discloses the general nature and extent of the release. Additional disclosure obligations may also apply at the time the property, or an interest in the property, is transferred. Accordingly, the Foreclosing Governmental Unit recommends that a person who is interested in acquiring property at this auction contact an attorney or an environmental consultant for advice prior to the acquisition of any property that may be contaminated.

## 10. Deeds

### A. Deed Execution and Delivery

All monies collected will initially be deposited in escrow. Once payment is cleared and verified, funds will be disbursed to the FGU and deeds will be executed and recorded as required by law. The FGU will deliver the deeds to the Register of Deeds for recording and remit them to the buyer after recording is complete. IT CAN TAKE 6 TO 8 WEEKS FOR DEEDS TO ARRIVE. PLEASE BE PATIENT.

### B. Restrictive Covenants

Some counties sell properties with deed covenants that will attach to the property. These parcels will be noted online, along with the terms being required. **Please carefully review the information for each specific parcel to make sure you understand the terms of sale.**

## 11. Property Taxes & Other Fees

All property taxes and associated fees that have accrued on or after April 1 in the year that a property is auctioned must be paid **at the time of checkout** after the auction along with the final bid price, buyer's premium, and deed recording fee.

Furthermore, please understand that the **buyer is responsible for all other fees and liens that accrue against a property on or after April 1 in the year that a property is auctioned.** These items are not prorated. They include, but are not limited to municipal utility or ordinance fees, and condo or property owner association fees or dues. This can also include demolition and other nuisance abatement costs. These fees and expenses **are not collected at the auction** and must be paid by the buyer after taking title to any purchased property which is subject to such fees and expenses.

## 12. Other

### A. Personal Property

Personal property (*items not attached to buildings and lands such as furnishings, automobiles, etc.*) located on offered property or within structures situated on offered property was not taxed as part of the real estate, does not belong to the FGU, and is not sold to the buyer of the real estate in this transaction. You are advised to contact former owners of any purchased property and provide them an opportunity to reclaim contents. A certified and first class mail notice to their last known address is strongly advised. It is your responsibility to identify and properly handle items of personal property. Seller makes no representations or warranties as to the presence of personal property or as to the legal requirements for dispensing with such property.

**Mobile Homes may be titled separately and considered personal property.** It is the buyer's responsibility to determine the legal status of any mobile home located on purchased property. A useful first step could include determining whether an Affidavit of Affixture of Manufactured Home has been executed and recorded as outlined in MCL 125.2330i.

### B. Mineral Rights

You will receive any and all title that the FGU obtains via their tax foreclosure through a quit-claim deed. If the owner of the surface rights to the property also owned the mineral rights, those will become part of your title interest. However this will be subject to the rights of any outstanding leaseholders of oil, gas, mineral or storage rights. You would be obligated to honor the balance of any remaining lease (with automatic renewals if so written). However if the mineral rights have been severed (split from the surface rights) and are owned by a third party, they have not been foreclosed by the FGU and are not included in the mineral rights conveyed to you. In either instance, the leaseholder still has the right to explore for and/or extract minerals under the terms of any outstanding agreement. **Mineral Rights are Excluded from all sales in Antrim County.**

### C. Applicability of These Rules and Regulations

All sales are subject to these Rules and Regulations. Furthermore, additional terms and conditions which apply to one or more specific auction lots may be printed in the auction sale booklets and/or online at [www.tax-sale.info](http://www.tax-sale.info) ("**Additional Terms**"). If such Additional Terms apply, they will be listed under the heading "Additional Terms and Conditions" on the online lot description page and/or in the printed sale book for the lot(s) to which they apply. Such Additional Terms, if existing, shall be considered a part of these Rules and Regulations for the specific auction lots to which they apply. In some cases, the auctioneer is required to relate certain information orally on the day of sale when it is not possible to include such information in the printed sale booklets or in these Rules and Regulations ("**Oral Terms**"). In such a situation, the auctioneer will clearly state that they are relating an additional condition of sale which either has not been previously printed or which modifies some portion of these Rules and Regulations. If the auctioneer makes such a specific announcement, the Oral Terms shall take precedence over these Rules and Regulations where applicable. Finally, additional conditions are included on the printed auction receipt given to the buyer at the time of checkout ("**Terms of Sale**"). All sales are subject to these Terms of Sale as well. These Rules and Regulations, Additional Terms, Oral Terms, and Terms of Sale are intended to be compatible. To the extent that a conflict arises between any of these sources, they shall be interpreted in the following order of priority: Oral Terms, Additional Terms, Terms of Sale, Rules and Regulations.

These Rules and Regulations are subject to change at any time and should be reviewed frequently.

**NOTE: Please review the terms at the top of each online catalog and the addendum pages in the printable sale books for county-specific purchase terms. Failure to follow the specific rules posted for each county could result in a cancellation of the sale and the retention of part or all of the purchase proceeds by the FGU.**

Because of this limitation, these parcels continually re-revert for unpaid taxes. It is a requirement of the sale of this bundle that the purchaser shall establish a cash bond account in the amount of \$100,000 for the purpose of providing engineered off-site sewage disposal for those parcels that do not support on-site systems. The cash account is to be jointly titled to the buyer and seller, and held by a third party approved by the seller. The purchaser shall be permitted to draw against such account for the expenses incurred in establishing such system(s), and when complete, any surplus funds shall be returned to the purchaser. These systems are to be engineered, built and lines run to each parcel within 24 months, or the cash account balance shall be forfeited to the seller to be applied toward such improvements. This cash bond account is to be created and evidenced prior to the issuance of the deed, or the sale will be cancelled and no refund issued</p> <p><i>(2 of 16) Parcel ID:</i> 041-265-000-043-00; <b>Legal Description:</b> T25N R9E SEC 14 LOT 43 TIMBERLAKES ESTATES SUB <b>Comments:</b> TimberLake Estates is a subdivision near Lake Huron and Greenbush. 202	<p><b>Parcel ID:</b> 002-452-050-00; <b>Legal Description:</b> PLAT OF AGATE POINT #2 LOT 50</p> <p><b>Comments:</b> If you've ever dreamed of owning a waterfront parcel on Lake Superior, HERE IT IS. Only one problem. Most of it has already slid off the bluff ... or its already underwater ! The road shown on the map (Lake Superior Trail) is long gone. Somewhere out to sea and not coming back. Every year a few more feet slide away. We don't know exactly how much of this lot is still even left, but it would be a losing proposition to build here. It may not even be enough to set up a tent on. But you're welcome to survey it and find out. The last owner noted "Abandoning - not much left" when they decided not to pay the taxes. Also (just a FYI) the road to this parcel from the rear (Sandy Lane) was not built this far west. Its covered with trees ... so it's walk-in traffic only. In theory this lot has 153' feet along the water facing boundary and runs a couple hundred feet deep, We don't think there is much left. <b>Additional Disclosures:</b> 8; 49 (see key for full text)</p> <p><b>Summer Tax Due:</b> \$202.42</p>	NORWAY TRL GRAND MARAIS MI 49839	\$100.00

The roofline has a serious sag in it, and the east wall is bowing out as if it is in some danger of popping loose. The inside is better than expected, but it probably needs some serious structural work. Roof is old and pretty sketchy, needs a good mowing and then replacement. The power service here has been dropped, often an indication that the local code enforcement people have condemned it. You may want to verify its status. 2 tiny bedrooms. VILLAGE OF KAWKAWLIN <b>Comments:</b> ATTN: No online bidding for this lot. The parcels in this sale unit are grouped, ("bundled") as permitted by MCL 211.78m. Many of these include structures which contain lead based paint. Some may contain asbestos. Many are in various stages of disrepair or collapse and are considered dangerous buildings and attractive nuisance. Some may be occupied by tenants-holding-over under law. These parcels are not being offered individually. They must be purchased as a single bundle at or above the minimum bid price, if any is stated. Pursuant to MCL 211.78 (1), the Foreclosing Governmental Unit (FGU) has determined that the most efficient and expeditious method to return many of these parcels to productive use, is to require their immediate demolition, remediation, rehabilitation or repurposing if sold at auction. Many of these parcels constitute blight, a public nuisance and abatement is considered necessary. Before their sale to ANY purchaser at auction, it is the intent of the FGU that any such purchaser shall demonstrate their financial ability and willingness to perform those actions necessary, in the public interest and welfare, to bring the properties into compliance with local codes and ordinances. Therefore, it is a further requirement of sale of the bundled properties that a purchaser must demolish, remediate, rehabilitate or repurpose these properties as follows: 1) ALL STRUCTURES must be secured and made un-enterable within 15 days of sale at auction, at the purchasers sole expense, or the sale shall be cancelled and no refund or deed issued. 2) Any visible refuse, garbage, trash or other cast off shall be removed from lands within 15 days of the sale at auction, at the purchasers sole expense, or the sale shall be cancelled and no refund or deed issued.. 3) The conditions required in (1) and (2) above shall be maintained against further entry or blight for a period of 12 months following the execution of a deed. 4) Those properties in the bundle that are beyond reasonable repair or economic vitality to repair must be demolished at the sole expense of the purchaser. The cost of such work shall be at the sole expense of the original purchaser and shall not be assigned, delegated or otherwise transferred to third parties through sale or conveyance until complete. All such demolition must be performed within 6 months of deeding, by a licensed, insured demolition contractor acceptable to the code official of the local unit of government where the property is located. All proper permits for demolition and the removal and disposal of volatile debris (asbestos, contaminants etc) must be obtained. 5) Those properties in the bundle which appear to either the purchaser, FGU or the code enforcement official of the local unit of government to be potentially contaminated, shall be the subject of a Baseline Environmental Assessment (BEA) at the sole expense of the purchaser. The cost of such BEA(s) shall be at the sole expense of the original purchaser and shall not be assigned, delegated or otherwise transferred to third	S HURON RD KAWKAWLIN;  WESLEY CT (REAR) BAY CITY;  1104 BANGOR ST BAY CITY;  611 STATE ST BAY CITY;  109.5 WOODSIDE LN BAY CITY;  115 N JACKSON ST BAY CITY;  114 N JACKSON ST BAY CITY;  2810 GARFIELD AVE BAY CITY;  916 SIBLEY ST BAY CITY;  403 S WARNER ST BAY CITY;  200 W THOMAS ST BAY CITY;  401 S WENONA AVE BAY CITY;  1509 N BIRNEY ST BAY CITY;	\$2,600.00

parties through sale or conveyance until complete. The BEA(s) shall be conducted by an insured environmental consultant licensed in the State of Michigan within 45 days of purchase, and shall be fully complete and filed with the proper authorities within 90 days of purchase. The level of the BEA to be conducted shall be determined by the findings of the initial phase(s) of the BEA at each parcel subject to such study. Where contamination is evident, the purchaser shall indemnify the FGU with a separate performance bond (issued on the same terms as others herein required) in an amount equal to the full cost of remediation of the contamination at each such site, and for a period of twenty (20) years, unless remediation is undertaken and completed during that time period. If the site is remediated to a level satisfactory to state officials charged with such determinations, the requirement for a performance bond shall be removed for that site. 6) Those properties in the bundle which can be rehabilitated or repurposed shall be brought into compliance with all construction, occupancy, zoning and other use codes of the local unit of government within 12 months. Construction and/or mechanical permits must be obtained prior to performing such work. Occupancy permits must be obtained by the expiration of that term. All construction and rehabilitation work at these properties shall be carried out by contractors that are licensed and insured, and acceptable to the code enforcement officer of the local unit of government. The cost of such work shall be at the sole expense of the original purchaser and shall not be assigned, delegated or otherwise transferred to third parties through sale or conveyance until complete. In pursuance of those requirements and their costs and timelines, the FGU is requiring the posting of a performance bond in the amount of \$450,000.00. The performance bond shall be made out in favor of the Office of the Bay County Treasurer (acting as the Foreclosing Governmental Unit). Evidence of the issuance and full payment for such bond shall be presented to the FGU within fifteen (15) days of the acceptance of the purchasers bid at auction. In the event evidence of issuance and full payment is not tendered within fifteen (15) days of sale, the sale shall be cancelled outright, and the purchaser considered non-responsive to a necessary condition of the sale. No receipt for the sale shall be issued, and the bidder shall not be entitled to enter upon such premises, until such bond is issued and deemed sufficient by the FGU. Such bond shall be issued by an underwriter licensed to do business in the State of Michigan, who is not the subject of any pending disciplinary action by the State of Michigan or any department, bureau or commission thereof. It shall be payable, in full amount, to the FGU in the event of either whole or partial non-performance of the terms above written for its entire duration. It shall run as effective and be fully pre-paid, for the entire term of twenty-four (24) months. Any overage or refund shall be payable to the purchaser upon earlier termination of the bond because of full performance hereunder. This 24 month time period is not applicable to those performance bonds required for contaminated parcels noted in (5) above. The original of such bond(s) shall be held by an escrow agent satisfactory to the FGU, fully prepaid, at the expense of the purchaser. In the event any purchaser is a corporate or other entity, the principals of such entity must also execute full-recourse personal guarantees that assure payment of the amount(s) due under performance bonds in the event they are not honored for any reason. Compliance with the terms of the requirements hereof shall be at the sole discretion of the FGU.

2014	<b>Parcel ID:</b> 051-010-2929-302-004; <b>Legal Description:</b> LOT 7 OF BLK 41 OF THE ORIGINAL PLAT <b>Comments:</b> 720 W Ludington is a solidly built brick downtown double storefront in busy Escanaba. The building is approximately 50' x 140' in dimension, which equals roughly 7,000 square feet per floor. The property has suffered from deferred maintenance in recently years, and presently is in dire need of a new roof. Portions of the built up roofing can be found on the sidewalk, which means that there are large areas open to the elements. The building is presently condemned by the City of Escanaba, and will need to be brought into compliance with the property maintenance code prior to being occupied. You may wish to check with city code enforcement for their notes. This is a classic property that in addition to lack of maintenance has been the victim of some "remodeling" that is out of character with the architecture. Rather than replacing the wood frame windows with suitably sized ones, off-the-shelf vinyl combination windows were used. Inside, some of the original architectural fabric and detail remains, but much has been covered or destroyed. The brick exterior is in solid condition, and even the tuckpoint appears to need little attention. However we do notice erosion of the sandstone trim, especially at sidewalk level, no doubt from snow removal and winter environment. This is a classic property begging for a deep pocketed visionary to rescue it. <b>Additional Disclosures:</b> 5; 31 (see key for full text) <b>Summer Tax Due:</b> \$3,479.38	720 LUDINGTON STREET ESCANABA	\$100.00

PLAT OF EAST KINGSFORD. <b>Comments:</b> Large concrete block building on a corner lot. Has an arched roof which is failing and probably not more than a good snow load away from caving in. Several biltmore additions to the rear and and multiple bay garage structure to the west. NOTE: The concrete block storage building to the rear is NOT a part of this parcel, but the office/house type unit facing Fisher Street IS .... and as a special bonus, the 70'ish dome building to the west is also on this parcel and included. The larger building here likely needs demolition, and that cost is probably more than the value of the property. Does not appear to have been used for anything more than cold storage in years. Was a long time bar and restaurant location. It's a bit tired and could use a resurfacing, as well as some mechanical upgrades. There are two apartments on the second floor which have been connected, and there is an interior stairway that leads to another one on the backside of the building. All of the apartments need new kitchens and baths. The exterior stairway to the upper apartments is shot and dangerous. Will need replacement. This building could probably be used for about any commercial type use, subject to zoning. The building is square and sturdy, just a little dated, worn and dirty. The kitchen exhaust vent hood would not pass current code. Walk in cooler is home made and likely wouldn't pass current codes either. The business has been closed since about 2006. Roof looks sketchy, but only appears to leak on the south side about half way back along the edge. There is no liquor license included in this sale. And they took all the beer away too :( . This is an incomplete rehab project that has new electric service and a pretty new natural gas forced air furnace as well. The front porch and the roof over the back section of the house need the most attention, but neither are huge projects. 2BR 1 BA. Itsy bitsy teeny tiny kitchen. The vacant parcel west of the home is part of the property. There is also a 2 car detached garage that is pretty solid (also could use a new roof) that the neighbors appear to be borrowing for parking. This one is salvageable. With the inside finished, a kitchen and bath, and siding and a roof, this one will be good to go for years. <b>Additional Disclosures:</b> 50 (see key for full text)</p> <p><b>Summer Tax Due:</b> \$1,270.66</p>	725 D ST IRON MOUNTAIN MI 49801	\$100.00

Aluminum siding and a mid-century remodeling here. There is some cave in of the foundation on the south side of the home here. We looked at it below, and it is in a crawlspace, not in the partial basement. So there is some prospect for excavating it and reinforcing it if the footings themselves are good. There are 3 bedrooms up and one down, with a bathroom on each floor. Kitchen isn't anything special, but it's merchantable. The front south side room here is unfinished. It was probably half of the living room at one time but has been partitioned off. Not sure what that plan was. Aluminum siding and a newer natural gas forced air furnace ... but that begs the question "where is the gas meter" ? We saw no evidence of any fuel supply .... <b>Additional Disclosures:</b> 50; 34 (see key for full text)</p> <p><b>Summer Tax Due:</b> \$1,187.57</p>	225 BIRCH ST KINGSFORD MI 49802	\$100.00

Ask us why. This one has a bad roof, the foundation is shifting around to the degree that the doors won't open or close properly, and there is a ton of rot in the sill plates and siding from the ground up. It is full of debris that is stanky and the sliding glass door won't close ... making it a haven for critters and their poo. You really can't tell the condition of this one until you get it emptied out. We would consider it a shell to empty, strip and start over with ... but you'll want to jab a screwdriver into a few spots and see if that is a worthy undertaking. There is also a one car garage that has some potential ... also with a lot of debris inside. There is a leak at the chimney that shows up in the kitchen, but the rest of the house is free of stains or leaks (so far). Two bedrooms and a bath upstairs, and one bedroom down. There is natural gas available here, but this house is still on fuel oil and has a mid-century forced air furnace. 60A fused electrical service. This is a solid place that could easily become functional again. Appears to have been a bank foreclosure before the taxman got it. There is also a two car garage here, but its roached and probably just needs to come down.</p> <p><b>Summer Tax Due:</b> \$510.72</p>	308 W LONGYEAR ST	\$100.00

We suspect that in later years it was converted into a multifamily use. We were unable to get into this building without physically breaking down a door (and not having a way to close it back up, so we didn't. Most of the doors seem to be securely screwed shut from the inside, and breaching the locks didn't seem to get us any entry. There is clearly room here for two large units or simply just use the whole thing as a large house. Bring your own doors. It has been decades (we think) since this has been in use and we've sold it at least once before. Heat is fuel oil. There is natural gas available here .. but never installed. The roof appears to be merchantable and the foundation is as well. Peeking in thru the windows, there is unfinished work in progress and it probably will need all new mechanicals and fixtures. Someone has started the rehab process with some new vinyl siding (that they didn't finish) and a newer roof (which they did). Inside, the heavy lifting is done, as it has been stripped down to the studs in most rooms. The concept here is removal of the second floor to introduce high, high cathedral ceilings in the front section of the house, with a loft over what we presume was to be the kitchen (?) for a bedroom sleeping area. This would be a cool plan to follow thru with. It isn't much to look at, but it appears to be generally sound, and like we said ... the worst of the demo work and the roof are done. Just shy of an acre in lot size, with 72 feet on the road and a depth of 488 feet. There is a garage out back that is beyond help and needs to go. There are no mechanicals, power or fixtures here. At one time this was probably a sharp place. Then it suffered the typical mid-century remodeling with wide aluminum siding and replacements doors and windows out of character. Steel roof. Appears to be pretty beat up and has a large tree laying on its rear porch roof. This home is currently OCCUPIED, and to our understanding there are a somewhat large number of people coming and going. They are living there without water service to the best of our information, so it is probably not very sanitary inside. It is not clear if the occupants have any permission from the last owner, or if they just decided to move in. This home appears to be straight and solid, but we suspect it is decor-challenged and probably very very grimy and dirty. <b>Additional Disclosures:</b> 6; 33 (see key for full text)</p> <p><b>Summer Tax Due:</b> \$559.92</p>	717 E AYER ST IRONWOOD	\$100.00

The roof here has been leaking for so long that major decay has even set in to the floor joists on the main level. Given the physics of water damage, the upper floor (which we didn't risk trying to get to) is probably even worse. This one may make sense for a neighbor to purchase, but given the market for storefronts in this region (many are available in better shape at attractive prices) this does not make a good speculation target. <b>Additional Disclosures:</b> 22; 5 (see key for full text)</p> <p><b>Summer Tax Due:</b> \$317.48</p>	213 E MCLEOD AVE IRONWOOD	\$100.00

Roof is older and looking shady. There is a good amount of general debris laying around to haul off before you can really get to work on this one. The general structure here seems solid, sturdy and straight, but it is trashy and needs a good cleaning out and scrubbing. It was the victim of a mid-century remodeling that has removed most of the original trim and fabric. replacing it with dropped tile ceilings and other features out of character for the period of the house. The furnace is natural gas forced air and older. Could not get to the electric service because of debris in the basement. It might look like a knock down from the street, but it's actually pretty well built and worthy of your consideration for rehab. In fact someone has started on it before and then quit. The main floor suffered a mid century "remodeling", while the upper floor is still pretty original. Has a good roof and foundation. The basement floor has some cracks and heaving, but that's not uncommon here. Newer bottle gas forced air furnace, but oooooold 60A electric service. No plumbing fixtures ... could use a new bath and kitchen. 3BR upstairs. Municipal water and a lot that fronts 75' on the south side of First Street and runs 300 FEET DEEP (that's a big lot). <b>Additional Disclosures:</b> 50 (see key for full text) <b>Summer Tax Due:</b> \$126.23	501 FIRST STREET ALPHA	\$100.00

The kitchen has disappeared, but that can be replaced. Three small bedrooms on the main floor. Forward section of the home is on a low concrete walled crawlspace, and the rear is on wooden pier footings with no insulated perimeter (coooooold in the winter). Natural gas forced air heat. The roof is very old and while not leaking... it's gonna !! We'd replace it sooner rather than later. Overall, it has potential. No major issues here. Needs resurfacing and attention to the roof and siding. <b>Summer Tax Due:</b> \$387.15		\$100.00
2817	<b>Parcel ID:</b> 051-231-011-00; <b>Legal Description:</b> SEC 1 T42N R35W KONWINSKI ADDITION LOT 11 BLK 11. <b>Comments:</b> This one has been well taken care of over time, and we're thinking it was a retirees getaway. Two bedrooms up, one typical and one pretty small. There is another potential one on the main floor, tho it is open to the living room (which isn't a big deal if you live alone). We noticed some repair to the foundation, especially the NE corner, as well as some cracks in other places, especially the south wall that have not been repaired, but they do not seem to have transmitted to the rest of the structure. There is settling in the slab-on-grade floor in the back room, but they carpeted right over the top of it, so apparently they were just used to it being there. This is a cute, efficient little place. There is a concrete block one car detached garage that has two corners both shifting from settling. Repairable ? Probably. But you'll want to get on it before the decay sets in further. We did notice a roof leak and some decay right over the back (east) wall. Parcel is 30' along First Street x 120' deep to the alley. <b>Summer Tax Due:</b> \$682.08	200 WEST FIRST STREET CASPIAN	\$100.00
2818	<b>Parcel ID:</b> 052-430-041-00; <b>Legal Description:</b> LOT 41 GREAT WESTERN LOCATION PLAT IN THE CITY OF CRYSTAL FALLS LOT 41. <b>Comments:</b> Home has a bad roof, especially along the south profile. It seems unlikely that this has been occupied since last century, probably much longer. Parcel fronts 110' along the east side of Adams Street and runs 120' deep. We could find no evidence of a modern electrical service here. Structure appears to be built on wood pier footings. We would look at this one as being a shell to rehab. Upside: There is natural gas and municipal water at the road. Paved village street. <b>Additional Disclosures:</b> 5 (see key for full text) <b>Summer Tax Due:</b> \$299.85	507 ADAMS ST CRYSTAL FALLS	\$100.00

2819	<p><b>Parcel ID:</b> 053-108-005-00; <b>Legal Description:</b> CITY OF GAASTRA LOTS 5, 6, 7, 8 &amp; 9 BLK 8. <b>Comments:</b> This is a large, well built home in Gaastra that has a bad foundation. The home is presently full of a lot of stanky garbage (including food garbage) as well as a family of skunks. There are three bedrooms on the upper floor, with an additional two "walk thru" rooms, and (we think) what was a bathroom. The main floor has a room partitioned off into another bedroom that was probably originally the dining room. If you cleaned this one out, it would be a worthy rehab candidate. BUT (there's always a "but", isn't there ?) it has a serious foundation issue, especially on the east wall, which has caved right into the basement. We also saw foundation repair to the west wall from a past issue. It may be worth the effort to relocate this structure to a nearby vacant lot, or rebuild the foundation. The electric panel and furnace (which we believe is newer as it has low temp venting) are in the basement, with the skunks, and we didn't want to interrupt them .... The plumbing here is likely bad, as we noticed heaving in the floor which is a typical aftereffect of frozen burst pipes. Parcel fronts 200' along the south side of Center Street.</p> <p><b>Additional Disclosures:</b> 34; 66 (see key for full text)</p> <p><b>Summer Tax Due:</b> \$1,074.00</p>	6 CENTER ST GAASTRA	\$100.00

Certified funds in the amount of the Surety shall be deposited with seller or its designee within 5 days of the auction. If the Surety is not presented within 5 days of the auction, the sale shall be canceled for non-performance without refund. Purchaser must present a plan to seller within 60 days of the auction which includes a cost estimate and timeline for the demolition of all structures located on the offered property by a licensed and insured contractor. Such plan must be approved by seller at seller's sole discretion prior to the commencement of demolition and remediation activities. Such demolition and remediation shall be completed within six months of the date of the auction. Demolition shall be considered complete upon certification of seller and at seller's sole discretion. The Surety shall be applied to the costs of demolition and remediation in accordance with the approved plan. Any costs incurred over and above the Surety are the sole responsibility of purchaser. Any Surety which remains after seller certifies the satisfactory completion of all demolition and remediation activities shall be returned to purchaser. If purchaser fails to comply with any of the terms and restrictions stated herein, they shall forfeit the Surety to seller. Seller has the unilateral right to accept, reject or require modification to the Surety prior to its acceptance by seller. Purchaser has NO RIGHT TO POSSESSION or entry upon the offered property until seller executes and records a deed conveying the offered property to purchaser. Mid-century conversion to two flat apartment setup. Separate electric and natural gas space heaters. This one has some foundation issues, and is on (at least partially) wood pier footings that are failing. The floors in both units pitch and weave. This one is fairly clean, but you're going to need to invest some time in repairing the foundation to make this merchantable as a quality rental property. The back end is on a hodgepodge of wooden pier footings and infill materials that have washed out, rotten or caved in. Inside, the floors slope and pitch accordingly. The entire structure needs to be stripped down to the studs and redone ... and that may not be worth doing given the foundation issues. The bathroom is *gone*, and the second floor has been substantially gutted already. The access for plumbing is in a crawlspace that we'd not go into without substantial cribbing and support in place. There is some deferred maintenance evident here on the exterior, and its just generally not been well taken care of in a few years. There are some modernization efforts not well executed. Roof is older but stable. Siding and exterior trim is nearing the point where it should be replaced in places or redone. Front porch decking is plywood, and may not be exterior grade. It is delaminating and someone is going to go thru it at some point. It seems as though this was built as a duplex ... but may have been connected and used as a single unit in more recent time. The decor is out of character for the period of the house, bit not insufferable. The kitchens and baths are both spartan and beat up. The house to the east is *very* close. The home has a steel roof, but the front south panel is not attached well and will lift during a good solid wind (you'll hear it banging when the wind blows). Inside, the house is grubby, but straight and solid. Has a generous main floor bedroom and large walkin closet. Two teeny tiny bedrooms upstairs. Kitchen isn't fancy, but its functional. Natural gas forced air heat. One car detached garage in decent condition. A resurfacing, and attention to the roof and foundation are in order here. The parcels in this sale unit are grouped, ("bundled") as permitted by MCL 211.78m. Many of these include structures which contain lead based paint. Some may contain asbestos. Many are in various stages of disrepair or collapse and are considered dangerous buildings and attractive nuisance. Some may be occupied by tenants-holding-over under law. These parcels are not being offered individually. They must be purchased as a single bundle at or above the minimum bid price, if any is stated. Pursuant to MCL 211.78 (1), the Foreclosing Governmental Unit (FGU) has determined that the most efficient and expeditious method to return many of these parcels to productive use, is to require their immediate demolition, remediation, rehabilitation or repurposing if sold at auction. Many of these parcels constitute blight, a public nuisance and abatement is considered necessary. Before their sale to ANY purchaser at auction, it is the intent of the FGU that any such purchaser shall demonstrate their financial ability and willingness to perform those actions necessary, in the public interest and welfare, to bring the properties into compliance with local codes and ordinances. Therefore, it is a further requirement of sale of the bundled properties that a purchaser must demolish, remediate, rehabilitate or repurpose these properties as follows: 1) ALL STRUCTURES must be secured and made unenterable within 15 days of sale at auction, at the purchasers sole expense, or the sale shall be cancelled and no refund or deed issued. 2) Any visible refuse, garbage, trash or other cast off shall be removed from lands within 15 days of the sale at auction, at the purchasers sole expense, or the sale shall be cancelled and no refund or deed issued.. 3) The conditions required in (1) and (2) above shall be maintained against further entry or blight for a period of 12 months following the execution of a deed. 4) Those properties in the bundle that are beyond reasonable repair or economic vitality to repair must be demolished at the sole expense of the purchaser. The cost of such work shall be at the sole expense of the original purchaser and shall not be assigned, delegated or otherwise transferred to third parties through sale or conveyance until complete. All such demolition must be performed within 6 months of deeding, by a licensed, insured demolition contractor acceptable to the code official of the local unit of government where the property is located. All proper permits for demolition and the removal and disposal of volatile debris (asbestos, contaminants etc) must be obtained. 5) Those properties in the bundle which appear to either the purchaser, FGU or the code enforcement official of the local unit of government to be potentially contaminated, shall be the subject of a Baseline Environmental Assessment (BEA) at the sole expense of the purchaser. The cost of such BEA(s) shall be at the sole expense of the original purchaser and shall not be assigned, delegated or otherwise transferred to third parties through sale or conveyance until complete. The BEA(s) shall be conducted by an insured environmental consultant licensed in the State of Michigan within 45 days of purchase, and shall be fully complete and filed with the proper authorities within 90 days of purchase. The level of the BEA to be conducted shall be determined by the findings of the initial phase(s) of the BEA at each	S 9TH ST KALAMAZOO;  518 FLORENCE ST KALAMAZOO;  1926 TRAVIS RD KALAMAZOO;  5814 N 20TH ST KALAMAZOO;  5118 KEYES DR KALAMAZOO;  1825 UNION ST KALAMAZOO;  1510 KROM AVE KALAMAZOO;  1134 ENGLEMAN AVE KALAMAZOO;  934 SOUTHWORTH TER KALAMAZOO;  1628 E MAIN ST KALAMAZOO;  600 PHELPS AVE KALAMAZOO;  1616 E MAIN ST KALAMAZOO;  629 EDWIN AVE KALAMAZOO;  516 HORACE AVE KALAMAZOO;  903 GULL RD KALAMAZOO;  1114 COBB AVE	\$2,800.00

Where contamination is evident, the purchaser shall indemnify the FGU with a separate performance bond (issued on the same terms as others herein required) in an amount equal to the full cost of remediation of the contamination at each such site, and for a period of twenty (20) years, unless remediation is undertaken and completed during that time period. If the site is remediated to a level satisfactory to state officials charged with such determinations, the requirement for a performance bond shall be removed for that site. 6) Those properties in the bundle which can be rehabilitated or repurposed shall be brought into compliance with all construction, occupancy, zoning and other use codes of the local unit of government within 12 months. Construction and/or mechanical permits must be obtained prior to performing such work. Occupancy permits must be obtained by the expiration of that term. All construction and rehabilitation work at these properties shall be carried out by contractors that are licensed and insured, and acceptable to the code enforcement officer of the local unit of government. The cost of such work shall be at the sole expense of the original purchaser and shall not be assigned, delegated or otherwise transferred to third parties through sale or conveyance until complete. In pursuance of those requirements and their costs and timelines, the FGU is requiring the posting of a performance bond in the amount of \$1,000,000.00. The performance bond shall be made out in favor of the Office of the Kalamazoo County Treasurer (acting as the Foreclosing Governmental Unit). Evidence of the issuance and full payment for such bond shall be presented to the FGU within fifteen (15) days of the acceptance of the purchasers bid at auction. In the event evidence of issuance and full payment is not tendered within fifteen (15) days of sale, the sale shall be cancelled outright, and the purchaser considered non-responsive to a necessary condition of the sale. No receipt for the sale shall be issued, and the bidder shall not be entitled to enter upon such premises, until such bond is issued and deemed sufficient by the FGU. Such bond shall be issued by an underwriter licensed to do business in the State of Michigan, who is not the subject of any pending disciplinary action by the State of Michigan or any department, bureau or commission thereof. It shall be payable, in full amount, to the FGU in the event of either whole or partial non-performance of the terms above written for its entire duration. It shall run as effective and be fully pre-paid, for the entire term of twenty-four (24) months. Any overage or refund shall be payable to the purchaser upon earlier termination of the bond because of full performance hereunder. This 24 month time period is not applicable to those performance bonds required for contaminated parcels noted in (5) above. The original of such bond(s) shall be held by an escrow agent satisfactory to the FGU, fully prepaid, at the expense of the purchaser. In the event any purchaser is a corporate or other entity, the principals of such entity must also execute full-recourse personal guarantees that assure payment of the amount(s) due under performance bonds in the event they are not honored for any reason. Compliance with the terms of the requirements hereof shall be at the sole discretion of the FGU. <b>Additional Disclosures:</b> 41 (see key for full text)</p> <p>(2 of 28) <b>Parcel ID:</b> 06-16-249-030; <b>Legal Description:</b> BUSH &amp; PATERSONS 2ND ADDITION, Lot 30. <b>Comments:</b> The house has been condemned. It appears that an older mobile was paired up with an old frame house, and then they added a couple more lean-to additions onto that, including a rustic vertical log front porch ... now collapsed. The workmanship here is primitive and its probably not worth restoring. So the value is in the 1.1 acre parcel, which is nice, dry, level open land. This is just a couple miles south of M-28 and not all too far from Newberry shopping and services. 208' on Airport Road (CR 399) and 238' deep to the east. There is a vacant camp setup to the north, and one with an older camper to the south. As far as we can cipher, neither of them are part of our parcel. There is a driveway (obstructed) that comes in off both N First Street as well as E North Street that wrap around to a plateau on that hillside from the west. 4330	<p><b>Parcel ID:</b> 52-53-020-193-00; <b>Legal Description:</b> LOT 11 BLK 18 OF PIONEER IRON CO PLAT <b>Comments:</b> Large, solid older duplex in Negaunee. While many multi-family units we see are converted single family homes, this one was built as a duplex, with the two units being symmetrical layouts. Each unit is 3 bedrooms and one bath. As far as we can tell the property is heated with a single boiler, which appears to be well past replacement age and condition. The two immediate needs here are a new roof and HVAC upgrade. The roof is deteriorated, but really only substantially affects the two bathrooms that are in the center-rear of the second floor. The chimney has also tipped over and scattered itself all over the roof below. Inside, the units are solid and have almost all of their original fabric (trim, hardwood floors, stained glass windows) intact. Kitchens and baths are old and could stand upgrading. There will be plaster repair necessary along the back wall, moreso in the left (130) side, The power meters have been removed, and we suspect that this property has been vacant for some time In the photo file, the tour begins on the main floor of the left (130) unit, goes to the second level, then attic, where we enter the right (128) unit and proceed from third to first floor.The synopsis here is that this is a solid, well built duplex that needs a roof, cosmetic upgrade and some attention to the HVAC system. There are likely to be some plumbing issues because of the age of the systems here, but we could not determine them in totality.</p> <p><b>Summer Tax Due:</b> \$1,272.12</p>	128 - 130 E MAIN ST NEGAUNEE	\$100.00

4806	<b>Parcel ID:</b> 003-127-000-020-00; <b>Legal Description:</b> T31N R2E SEC 27 NW 1/4 OF NE 1/4 <b>Comments:</b> Offroad 40 acre parcel north of Atlanta. It's located about a mile away from power as best we can tell on the ground (unless it is closer on the backside somewhere). This parcel does not have public road frontage, and is located about 300 feet east of Decheau Lake Road. Access to a rustic cabin (in poor condition) is via a well site access road off M-33 North, south of Rouse Road. The structure is on the East side of the parcel, midway between the north and south line. The building is in serious disrepair and has large critter size inhabitants (probably raccoons) in the attic. The drive is near an ORV trail. Building is on pier footings and has no power or water. Very difficult to locate. An earlier deed in the title chain to this parcel reserved the mineral rights. We're not sure if they are still held by a third party, or if they've reverted to the surface owner, but because of the active natural gas production activity around here, its unlikely that they have reverted under the Michigan Marketable Title Act. USGS topographical surveys indicate that this is level, wooded, DRY land. If you're chasing this one, you'll want to verify the mineral rights (if that is important to you) as well as deeded easement rights to the property, if any exist. <b>Additional Disclosures:</b> 43; 7; 27 (see key for full text) <b>Summer Tax Due:</b> \$575.00	14875 DECHEAU LAKE RD ATLANTA	\$100.00

It has NO legal access to road frontage at this time. There IS a legal easement to the property that shares the driveway with the property to the northeast (presently for sale) HOWEVER where that easement runs west to this parcel from the driveway is covered by the south 15 feet of the home on that parcel. In other words, the easement to this parcel has the neighbors house sitting on top of it. The rest of the neighbors here do NOT want you driving across their property to get to this one. Sooooooooooooo there isn't any way to get to this. If you could, there is an older mobile here that (so far) has a good roof and is merchantable. The well is bad we are told, and there is no septic system here ... or if there is, it's no good. Detached garage and storage shed as well as a camper to which we have no title. You will need to negotiate or litigate for access to this. There is a good amount of bad blood over this easement issue in this area, and that may not be a certain outcome. <b>Additional Disclosures:</b> 8 (see key for full text) <b>Summer Tax Due:</b> \$157.80	7011 E M-20 HESPERIA	\$100.00

They sit a few hundred feet SW of the power station in Mass City. There aren't any improved roads back into this area, and our recollection is that its a little marshy as well. At present, the left/north unit (main floor) is storage for manstuff. The right/south unit is far more modern and is used with the upper floor (both sides) as living space. The building is pretty straight and solid, mostly in need of cleanout, cleanup and resurfacing/decor change. Roof looks good in the front (steel) but the back side is oooooold shingle. Not leaking now, but it's gonna ! Basement has water in it presently, probably from sump pump having no power. It looks like wood is the primary heat source. Power service is antiquated. <b>Summer Tax Due:</b> \$134.05	1804 RIDGE AVE, GREENLAND TOWNSHIP	\$100.00

At one time this was probably one of Ontonagons nicer houses. Now it's not. This one sat here, loaded with hoarder goodies, and subject to snow and rain, for at least 15 years. Then someone bought it at our sale and emptied it out (thank you !!!) and now we can see just how bad off she is. The photos tell that whole story. This home could probably be saved, but to be honest, given what you can buy a nice home for here, it would probably cost more to fix it than it would be worth when its done. Might be excellent practice for someone that likes knocking things down. The decay in the front area of the house has advanced to the degree that the floor is actually separating from the walls .... <b>Additional Disclosures:</b> 22; 36 (see key for full text) <b>Summer Tax Due:</b> \$224.63	501 OLD ROCKLAND RD ONTONAGON TOWNSHIP	\$100.00

We've sold this one at least twice before ... and just like a bad penny .... The west/left storefront is probablty the only one feasible to save, and that's because the floor is slab on grade. The other two have frame floor(s) that are badly deteriorated from both decay and design. We think on or both of the right side/center and east buildings may have been a movie theatre at one time based on what appears to be a sloped floor under the one there now. The front portion of the roof here was upgraded with a rubber EPDM roof at one time, but the rear portion has blown away and the inside has been saturated with water for at least 10 years now. There are holes in the floor where people have gone through (including yours truly about 6-7 years ago or more) and the roof has various spots of daylight from decay as well. This one probably needs to come down. <b>Additional Disclosures:</b> 22; 36 (see key for full text) <b>Summer Tax Due:</b> \$259.96	317 RIVER ST ONTONAGON TOWNSHIP	\$100.00

There is a small roof leak in one corner of the kitchen which so far should not have caused much damage ... we'd get it fixed this season. Has a newer bottle gas forced air furnace. The one car garage appears to have had some use as a guest space. Outbuilding to the rear is a goner most likely ... has a really bad roof problem. This place could be cute with the right touches. <b>Summer Tax Due:</b> \$435.15	1261 SCHMALL ROAD LUZERNE MI 48636	\$100.00

Two small bedrooms. The roof here is not just bad ... it's GONE. They remove the shingle to re-do, put on the magic blue tarp, and then left it. It's been raining inside for a while now, and the rear half (kitchen) area has been pretty much ruined. The entire rear end will need resurfacing, and the front section will need at least new subfloors, decking and such. Could be a cute little place in the right hands. But she needs a roof TODAY. NOTE: Purchaser will be required to furnish a personal guarantee and cash surety in the amount of \$150,000.00 (the "Surety") to ensure the demolition and remediation of the offered property to a safe and debris-free condition. Certified funds in the amount of the Surety shall be deposited with seller or its designee within 5 days of the auction. If the Surety is not presented within 5 days of the auction, the sale shall be canceled for non-performance without refund. Purchaser must present a plan to seller within 60 days of the auction which includes a cost estimate and timeline for the demolition of all structures located on the offered property by a licensed and insured contractor. Such plan must be approved by seller at seller's sole discretion prior to the commencement of demolition and remediation activities. Such demolition and remediation shall be completed within six months of the date of the auction. Demolition shall be considered complete upon certification of seller and at seller's sole discretion. The Surety shall be applied to the costs of demolition and remediation in accordance with the approved plan. Any costs incurred over and above the Surety are the sole responsibility of purchaser. Any Surety which remains after seller certifies the satisfactory completion of all demolition and remediation activities shall be returned to purchaser. If purchaser fails to comply with any of the terms and restrictions stated herein, they shall forfeit the Surety to seller. Seller has the unilateral right to accept, reject or require modification to the Surety prior to its acceptance by seller. Purchaser has NO RIGHT TO POSSESSION or entry upon the offered property until seller executes and records a deed conveying the offered property to purchaser. Parcel is 330x396 feet in size. Located on a county maintained paved road. This property (last we knew) is still occupied by a relative of the former owner. There are a half dozen inoperable vehicles, campers, boats etc... scattered around. The barn styled building appears to be at least partially used as a living quarters. We are told there is no running water here ... not sure if there is active power or not ... or if there is a well or maybe issues with either or both. This property has potential, but will need some cleanup. Quiet country setting. <b>Additional Disclosures:</b> 50; 6; 33 (see key for full text)</p> <p>(2 of 2) <b>Parcel ID:</b> 045-100-000-099-00; <b>Legal Description:</b> LOTS 99 &amp; 100 BERRYS ADDITION VILLAGE OF VANDERBILT. If it is discovered that a prospective bidder does not own adjacent lands, the proposed sale will be canceled and no deed will be issued. Any such bid(s) will be considered contingent upon verification of claim of adjacent ownership and will not be awarded as a final winning bid, or payment collected, until such claim is validated. Please contact us if you are an adjacent property owner who wishes to place a bid on this parcel. We have sold an awful lot of property over the past 18 years ... probably in excess of 50,000 pieces ... but we think this is the SMALLEST PIECE EVER OFFERED ! Nothing says you care like a piece of land that is FOUR INCHES WIDE ! We only have one ! So get it while you can ! And because we're all out of Ginsu knives to throw into the deal, it's also LANDLOCKED and you can't even get to it ! This parcel is located behind 1641 Robbins, and is the result of discrepancies in legal descriptions. <b>Additional Disclosures:</b> 9 (see key for full text) <b>Summer Tax Due:</b> \$41.89	(Behind) 1641 Robbins - Grand Haven	\$100.00

You are bidding on a soon to be VACANT LOT. This one is sinking into the ground. It is condemned and cannot be occupied until the serious issues with the foundation are addressed. It's noticeable from half a block away as you drive up. The value here is in the lot and utility service. The house was built on a wooden pier footing system, and over time the footings and floor joists have decayed and lost their structural integrity. The last owner discovered this and opened up the floor in the center-rear of the house (where it's sinking the worst) to try to fix it. Apparently they discovered the serious level of decay and threw in the towel. Back addition here has a really bad roof (open to the elements. The entire thing probably just needs to come down. Mechanicals are missing or junk. <b>Summer Tax Due:</b> \$724.73	317 HOUGHTON AVE MANISTIQUE MI 49854	\$100.00

There have been some updates here including an architectural series shingle roof, and a high efficiency natural gas forced air furnace. The inside is fresh and fairly clean. Won't take a lot to make this one ready to move in to. It is near some things tho .... like a large storage building that is less than 2 feet away on the north, and train tracks that are spitting distance from the south side (does not appear that they're used often based on the track appearance). Overall this is a pretty solid little place. <b>Summer Tax Due:</b> \$399.52	135 HOUGHTON AVE MANISTIQUE MI 49854	\$100.00

## Additional Disclosures Key

**5:** One or more buildings on this parcel has a roof which is either leaking to the interior or appears close to failure. Failing roofs often indicate substantial structural decay inside the building. You should investigate the integrity of this structure(s) prior to bidding.

**6:** This property is **occupied**. Please respect the privacy of current occupants and limit any inspection to what can be **safely observed from the road**. Some occupants may be upset or angry and may meet contact with aggression or violence. **Please use discretion and caution when researching this or other occupied properties**. Furthermore, although this property has been foreclosed for unpaid taxes, occupants have certain rights under Michigan law and must be formally evicted if unwilling to leave voluntarily. You may wish to consult a licensed attorney for more information.

**7:** This parcel does not front on a public or privately deeded improved road. Often times there are easements in the recorded chain-of-title that provide legal access to such parcels but other times there are not. You should thoroughly research this parcel's access rights prior to bidding. It can require expensive, complicated, and time consuming legal proceedings to secure legal access to landlocked parcels that do not have easements for ingress and egress.

**8:** The roads which are shown on plat or tax maps for this parcel do not appear to exist or may be located in a different location than shown on such maps. While a legal right to build such roads may remain, this construction would likely be very expensive. However, in some instances these unimproved roads have been vacated or abandoned by action of the local government and no such right to construct the roads remains. Issues surrounding unimproved roads can be complicated and expensive to resolve. You should investigate the existence of any roads and the ability to access this parcel thoroughly before bidding.

**9:** This parcel is too small to be practically useful under most circumstances. Many times such parcels are the result of survey or property transfer errors which create small orphaned slivers of land. These parcels are frequently too small to allow construction or any other practical use. They often have no road frontage or legal means of access. These parcels can often lead to **adverse claims or encroachments by neighboring land owners** which can be complicated legal issues to resolve. Please investigate this parcel thoroughly prior to bidding.

**10:** This parcel has surface water, soil, or vegetation conditions indicating that it may include wetland habitat. Such habitat may comprise all or part of the parcel's area. However, it is possible that this parcel contains buildable areas as well. There are many environmental and building regulations related to wetlands which you should consult before bidding on this parcel. The Michigan Department of Environment, Great Lakes, and Energy maintains a Wetland Map Viewer which provides easy access to wetland data and can be found [here](#). It is your responsibility to determine if this parcel is suitable for your desired use.

**11:** This parcel includes structures which have been damaged by fire. It is up to the auction purchaser to determine if this property can be restored to a safe condition and to comply with all relevant local regulations and building codes. Please research thoroughly prior to bidding.

**15:** This lot is part of a condominium development. A condominium is a form of land ownership which is divided up into individual "units." Owners are required to be part of the applicable condominium association (COA) which includes rules and regulations related to the use and ownership of each unit. Additional restrictions will be spelled out in the development's **master deed**. Condominiums also **include association fees** which can be significant. Some condominium units delegate things like exterior maintenance and repair to the COA whereas the owner remains responsible for the unit's interior. However, there are many varieties of condominiums including residential and commercial interior space, condo subdivision lots, condo boat slips, condo campsites and others. Prospective bidders should **carefully review and understand the master deed, COA rules and regulations, and investigate association fees prior to bidding**.

**16:** This parcel is likely subject to ASSOCIATION FEES which are assessed to cover maintenance and other costs associated with the development in which the parcel is located. Interested parties should verify the existence and extent of association fees and costs prior to bidding.

**17:** Mobile homes (and some modular homes) can be separately titled and considered personal property. In these instances, there may be third parties that have the legal right to remove that mobile home from the parcel whether or not it has been assessed as part of the property in the past. We make no representations or warranties as to whether such mobile or modular homes are included with the real property offered for sale. It is the buyer's responsibility to conduct their own research as to the state of title. As a preliminary step, it may be useful to determine if an Affidavit of Affixture of Manufactured Home has been executed and recorded as outlined in [MCL 125.2330i](#). You may wish to consult a licensed attorney or title company to assist in this research.

**18:** The building on this property appears to have been used for multi-family occupancy in the past based upon indicators such as multiple mailboxes, entrances, numbering, layout, or other such factors. Modifications to the property may NOT have been legally made and may NOT conform to local zoning. Prospective bidders should verify with local officials that multi-family use is permitted under existing zoning. In many areas, once a multi-family use has been discontinued, it cannot be reinstated unless in conformance with local zoning and code.

**19:** Property uses which don't conform to current zoning regulations may be permissible if grandfathered in. However, once such a non-conforming use ceases, that grandfathered status is often lost. This can include the use of mobile homes, multi-family construction, and other property uses which are no longer allowed by local zoning regulations. You should confirm with local zoning officials that your intended use of this property is allowed prior to bidding.

**21:** This parcel appears to contain "personal property" that may be of value. Property tax foreclosure affects **only "real property."** In general, real property includes the land and those things physically attached to it. **This sale includes only such real property.** However, some parcels also contain personal property such as cars, furniture, clothing, and other

things which aren't physically attached to the land. Such **personal property is not included as part of this sale**. It is strongly suggested that the purchaser of this parcel contact the former owner and provide them the opportunity to remove this personal property before disposing of it. Minimum reasonable steps could include sending a letter by certified and first class mail to the former owner at their last known address. However, it is the responsibility of the winning bidder to determine what personal property is present on the parcel and the appropriate measures for handling such personal property.

**22:** This parcel has substantial structural issues caused by poor design, insufficient maintenance, or both. Such buildings may be subject to condemnation orders which we were unable to locate during our inspection. All such buildings should be brought into compliance with local building regulations prior to use. We **strongly** recommend that you contact the local building code official and consider consulting a competent structural engineer to assess the condition of this property before to bidding.

**23:** This parcel is located within a municipality which monitors property maintenance and condition. You may be assessed fees and fines if you fail to mow the grass or do not otherwise properly maintain the property after purchase. One advantage to these parcels is that they typically have infrastructure nearby (water, sewer, power). However, you should confirm the availability of such utilities as well as the connection costs prior to bidding. It is your responsibility to determine whether a parcel is suitable for your desired purpose.

**25:** There is evidence posted which indicates that a lender may be attempting to foreclose upon this parcel **after** such parcel was foreclosed for delinquent property taxes. A purchaser may encounter future contact from this lender. Tax foreclosure supersedes the rights of mortgage holders. If a mortgage holder does not foreclose upon their mortgage interest prior to tax foreclosure, their right to do so is generally lost. Typically such mortgage holders were provided all necessary notice of tax foreclosure but failed to act in a timely fashion to preserve their interest. In rare instances it may be necessary to cancel a sale if a deficiency in notice to such a lender is discovered. Please contact us or ask questions at the sale if you have concerns about this issue.

**27:** In some cases, a party other than the surface land owner may own the right to explore for and remove oil, natural gas, and other minerals from a property. Such "severed" mineral rights generally include the right to enter upon the surface of the land in order to prospect or remove minerals located beneath the surface. If you are purchasing property of any substantial size (over a few acres), you may wish to investigate whether the mineral rights are included in the sale or if they have been severed and are owned by third parties. Significant mineral interests are held by the State of Michigan. Information about mineral interests held by the State can be found [here](#). Even if not owned by the State, mineral rights may have been sold to third parties or retained by a previous owner. Oil, gas, and other severed mineral interests are not affected by property tax foreclosure. Furthermore, due to the complicated nature of mineral abstracting, such severed interests have not been examined during the foreclosure process. **Severed mineral interest are not included as part of this sale**. If the mineral interests have not been severed, such interests are included. However, it is the sole responsibility of a prospective purchaser to determine the state of any mineral interests associated with this property prior to bidding. Seller makes no representations or warranties regarding the state of title to any mineral interests associated with this parcel.

**30:** This parcel may be subject to utility, road, driveway right-of-way, or other easements which could allow third parties access to the property. Easements are not extinguished by tax foreclosure and foreclosed parcels are sold subject to these preexisting rights, if any. You should conduct your own investigation into the existence of any such easements prior to bidding.

**31:** This parcel has been posted as "Condemned" by the local building authority. Properties are generally condemned when they are deemed substandard, unsafe, or otherwise unfit for use and habitation. Condemned property **must** be rehabilitated to meet local building codes **prior to use or occupancy**. A building is not automatically slated for demolition when condemned. However, this does not necessarily mean that demolition will not also be pursued by the local unit. Please check with the local building official before bidding to determine the specific status and requirements for this property.

**32:** This building contains evidence of **mold**. Mold is an indication of excess moisture which can come from a variety of sources including high ground water, improper sealing of foundation walls, damaged roofs, and other conditions which can be expensive to correct. Mold can pose significant health risks and, if extensive, may require a complete renovation which could exceed the value of the building. Please conduct your own research and bid accordingly.

**33:** The interior of this property was not viewed during our inspection. Buildings which are dangerous, occupied, boarded, condemned, or otherwise difficult to enter are inspected from the exterior/curbside only. You are NOT authorized to enter these or any other buildings offered for sale. You should limit your inspection to that which can be made safely from the building's exterior.

**34:** The foundation of one or more buildings located on this parcel appears to be failing. Correcting foundation issues can be very expensive and issues are often more complex than they initially appear. You should research this issue thoroughly prior to bidding on this parcel.

**35:** This property contains physical indications that one or more water lines have frozen, ruptured, and leaked for a significant period of time prior to being shut off. Such indications can include damage to ceilings and floors and visibly damaged pipes and fixtures. Damage from freeze bursts can be substantial including significant harm to structural components such as framing and foundations.

**36:** This parcel includes a structure which should be considered **DANGEROUS**. This building has suffered structural damage which creates substantial risk of harm from falling through damaged areas or collapse from above. It may also contain extensive debris which could fall or collapse, rusty nails, broken glass, and other hazards. **You are not permitted to enter this or any other structure offered at tax sale. You should limit your inspection only to what can be safely observed from the building's exterior.** Trespassers are subject to prosecution.

**37:** This property includes an outstanding special assessment. Local units of government often borrow money for projects such as streets, water/sewer, lighting, and other public infrastructure improvements. These costs are then assessed to the owners of affected property over a period of years in installments added to the annual tax bill. All past installments of these assessments are included in the minimum bid price. ***The purchaser assumes liability for all future installments of these assessments.*** We would advise prospective bidders to investigate the balance due on all special assessments as well as the ongoing annual cost *before bidding*.

**41:** This parcel has surface water, soil, or vegetation conditions indicating that it may include wetland habitat. Such habitat may comprise all or part of the parcel's area. However, it is possible that this parcel contains buildable areas as well. There are many environmental and building regulations related to wetlands which you should consult before bidding on this parcel. The Michigan Department of Environment, Great Lakes, and Energy maintains a Wetland Map Viewer which provides easy access to wetland data and can be found [here](#). It is your responsibility to determine if this parcel is suitable for your desired use.

**42:** Our review of this parcel indicates that the noted State Equalized Value (SEV) does not appear to reflect the current value of the property. This is often due to buildings or other improvements being demolished or fire damaged or other similar items included in the SEV being removed from the property. It can also be due to market changes in the area in which the property is located. It should be further noted that the SEV/assessed value of the parcel as noted in this listing may be several years old. You should consult a local real estate professional or appraiser to help you assess the current market value of this property before bidding and ***should not base your valuation on the stated SEV.***

**43:** Our visual inspection indicated that electrical service was not available on or near this parcel. The nearest electric service appeared to be a considerable distance (hundreds or perhaps thousands of feet) from the property. As such, electrifying this parcel could be costly. Please conduct your own research prior to bidding.

**45:** Our inspectors encountered aggressive dogs in the vicinity of this parcel. Please ***exercise caution*** if you choose to assess this property in person.

**46:** One or more structures were boarded when we conducted our assessment of this parcel. Properties may be boarded for a variety of reasons. For example, properties are often boarded to prevent trespassers from harvesting copper plumbing, wiring, and other fixtures. Buildings may also be boarded by fire or other officials when they present a safety hazard. We generally do not enter boarded structures and limit our observations to the building's exterior. Likewise, you should limit any inspection of this property to its exterior ***only***. You are not permitted to remove any boarding to view building interiors under any circumstances. Public property records or polite inquiries to neighbors may reveal additional information about a property's history.

**47:** This property has been subject to vandalism by former occupants or other parties. Typical damage includes broken windows, holes in walls, broken doors and doorjamb, and other damage which can add to the cost of repair and rehabilitation. You should conduct your own research prior to bidding on this parcel.

**49:** This parcel appears to have challenging terrain. Challenging terrain can include steep hillsides, ravines, gullies, or similar topographical features as well as little to no buildable area. Such parcels often have no practical use. You should investigate this parcel's terrain and suitability for your desired purpose prior to bidding.

**50:** The previous owner of this parcel undertook a construction or rehabilitation project which has not been completed. We have attempted to describe the degree to which the project has been finished, but the building should be considered incomplete nonetheless. The local building code enforcement official may be able to offer additional insight as to why the project was never completed.

**51:** This property appears to be part of a plat which was established before modern zoning ordinances were in effect and may include lots which are not large enough to build on based upon modern requirements. It may be necessary to assemble a group of such lots to meet current land use regulations. Interested parties should contact the local land use office for additional information and conduct other appropriate research prior to bidding to ensure that this parcel is suitable for your intended purposes.

**52:** This parcel is what we refer to as a 33'/66'. We frequently see foreclosed parcels that are either 33 or 66 feet wide. These parcels are often a result of existing or former road rights of way. A common road right of way is 66 feet wide. Half of that is 33 feet. There are two common scenarios that we see. **Scenario 1:** A land owner splits a tract of land and creates a common easement parcel for access. They might then quit paying taxes on the parcel with road frontage knowing that the easement would remain even after foreclosure. Such easements are generally either 33 or 66 feet wide. **Scenario 2:** Rural land generally runs to the *center* of any public road on which it fronts whereas subdivided land usually runs to the *edge* of the road right-of-way. Sometimes during surveys or other splits, half of the right-of-way (usually 33 feet) can become orphaned, effectively turning to no-man's-land. Potential bidders should be aware that 33 and 66 foot wide parcels are ***very likely to include easements***. That means that there are people who have a *right to use the property* even though they do not own the land. It is unlawful to cut off access over a 33 or 66 foot parcel where an easement already exists. Even if an easement doesn't already exist, courts will frequently create such an easement to prevent a neighboring parcel from becoming landlocked. Potential bidders should consider that this parcel likely has little value and cannot be used to landlock a neighboring parcel when there is no other path for ingress and egress.

**53:** This property appears to be an "outlot." An outlot is land in a subdivision that is not intended for use as a building site by the original developer. Outlots may be wetland, terrain-challenged, or otherwise unbuildable. Other times, small outlots are left as future road access to adjacent land in case the subdivision is subsequently expanded. Generally speaking, outlots have characteristics which render them unsuitable as building sites. Please investigate this property carefully prior to bidding to ensure it is suitable for your intended purpose.

**60:** A visual inspection of this parcel indicates that it contains a crop or planting which may have been made by a third party. These can range from single year crops like corn or grain to items such as Christmas trees or other nursery stock.

which require more than one year to mature before harvest. Any third party lease has been voided through the foreclosure process. However, these situations can become points of potential litigation. In an effort to prevent dispute, the Foreclosing Governmental Unit will often grant single year farmers the right to harvest their crop as a condition of sale.

**63:** Pet and/or wild animal waste was observed within this property. Potential bidders should consider that urine stains/odors can be difficult to remove from porous surfaces such as wood floors or underlayment.

**64:** The structure(s) on this parcel have been slated for **demolition** by the local unit of government prior to sale. As such, it is being presented here as a vacant lot. You should confirm the status of this parcel as well as the allocation of the cost of demolition prior to bidding.

**66:** This property is unsanitary and poses a potential health hazard because of raw food garbage, backed up sewer lines, or other similar waste. Such conditions can attract rodents, wild animals, and other vermin. You should bid accordingly and be prepared to mitigate the situation immediately upon purchase.

**68:** This parcel is part of a site condominium development. A condominium "unit" is a form of land ownership which is similar to a traditional subdivision "lot" but is also different in some important respects. Each condominium development is laid out in a document called the **master deed** which outlines the extent and nature of each condominium unit. The master deed also contains rules and restrictions related to construction and permitted use. Construction requirements can include everything from the size or design of buildings to color and orientation on the site. Condominium developments also include "common elements" like streets and sidewalks which are shared across all units. Some developments include amenities like golf courses, clubhouses, beaches, pools, and parks whereas others include only basic infrastructure like roads and sidewalks. Site condominiums also **include association fees** which can be significant. Prospective bidders should **carefully review and understand the master deed and investigate association fees prior to bidding**.
