***Time:***

Auction: 10:00am to 07:00pm

*Printed information is subject to change up to the auction start time. Please check  
each lot listing closely for updates.*

[Facebook.com/TaxSaleInfo](https://Facebook.com/TaxSaleInfo)

There are two ways to bid at our auctions this year:

**ONLINE VIA OUR WEBSITE**

**ABSENTEE BID**

(Absentee bids are for those who do not have computer access)

For **registered users**, our website features:

- **Photos** and detailed descriptions of properties (where available)
- **Faster check-in/out** with pre-registration online
- **GPS/GIS** location of the property
- **Maps** of the property vicinity (where available)
- **Google Earth links** to satellite images of the area, and street views of the property and neighborhood (where available)
- **Save properties** to your personalized “favorites” list

We have a short window to review several thousand parcels prior to listing them on our website. We began inspecting in May, and add data as we get to each parcel. Please be patient and **check back often as the auction date approaches** for updates. Parcels are sold "as is" based on the assessed legal description only. All other information in this salebook or listed on our website, though reliable to the best of our knowledge, is provided as unverified reference and is not guaranteed to be accurate. You should verify this information with your own research and investigation prior to bidding.

## Visiting and viewing property BEFORE auction:

The auction list being furnished is of property that **MAY** be offered. *Many parcels on early lists do not actually proceed to the auction for a variety of reasons.* PLEASE FOLLOW PROPERTIES YOU ARE INTERESTED IN ON THE WEBSITE. They may be removed from the list, which is updated *daily* on the website if the status is changed. If you do not use the internet, please verify current status with the Treasurer's office regularly.

**You are NOT AUTHORIZED to enter any buildings**, even if they are unlocked or open to access. Entering into a tax auction property to "see it" is **breaking and entering. It is a criminal offense.** Please limit your review to looking through the windows and other external inspection. We will post exterior and interior photos, and provide other commentary as available.

Entering properties (even vacant land) can be dangerous because of condition. **You assume all liability for injuries and other damage** if you go onto these lands.

**Properties may be OCCUPIED or "being watched" by former owners or neighbors sympathetic with former owners.** Occupants are often UNKNOWN and could potentially be volatile, unstable or "anti- government" persons. Even vacant land presents potential for conflict.

Some properties still contain the **personal property** of former owners (vehicles, furnishings, appliances etc). These items are **NOT SOLD** at our auction. We are only selling the **REAL ESTATE (land)** and whatever is **attached** to it (land, buildings and fixtures).

- **You are NOT AUTHORIZED to remove ANY "personal" property, "scrap" metal or fixtures from auction parcels. This is THEFT AND WILL BE PROSECUTED.** We often ask neighbors to watch property for theft and vandalism and report this to local police. ***You have been warned...***
- **PROPERTY IS SOLD "AS IS" IN EVERY RESPECT.** Please check zoning, building code violation records, property boundaries, condition of buildings and all local records.
- **THERE ARE NO REFUNDS AND NO SALE CANCELLATIONS AT BUYERS OPTION.**
- **INFORMATION OFFERED ON THE WEBSITE OR IN THE SALE BOOK IS DEEMED RELIABLE BUT IS NOT GUARANTEED.** We suggest reviewing the records of the local ASSESSORS office to be sure that what we are selling is what you think it is. ***We sell by the LEGAL DESCRIPTION ONLY.***
- **YOU SHOULD CONSIDER OBTAINING PROFESSIONAL ASSISTANCE** from land surveyors, property inspection companies or others if you have questions about property attributes.

**PLEASE REMEMBER that property lists can change up to the day-of-auction.**

## **PAYING FOR YOUR AUCTION PURCHASES**

- **The full purchase price must be paid in full within 5 business days of the sale.** No purchases can be made on a time-payment plan.
- **NO CASH or PERSONAL CHECKS** will be accepted.
- All payments must be made with a **Credit/Debit Card, Wire Transfer, or by CERTIFIED (cashier's) check.**
- Your sale is NOT final until we've received both your payment and your notarized receipt/buyer's affidavit paperwork. This is due 5 business days from the date of the sale.
- When mailing in your paperwork (especially with a certified check), please use a TRACKABLE service like priority mail or FedEx to ensure timely delivery.

## **Bidding Authorization**

- Online and absentee bidding requires a **\$1,000 pre-authorization hold** on a Visa, MasterCard, or Discover credit card or a \$1,000 certified funds deposit before any bids will be accepted. Buyer's failure to consummate an online or absentee purchase will result in the forfeiture of this \$1,000.
  - *Your card is not charged unless you win, however the hold may reduce your available credit until it is released by your credit card issuer (usually 30 days).*

## **Absentee bidding**

If you do not have internet access, **you can submit an absentee bid by e-mailing or calling us.** You will still need to pre-authorize a \$1000 deposit on a major credit card (or mail in a \$1000 certified check deposit). Contact us at 1-800-259-7470 for more information. *Your card is not charged unless you win, however the hold may reduce your available credit until it is released by your credit card issuer (usually 30 days).*

# Rules and Regulations

## 1. Registration

Registration for live on-site auctions will begin 30 minutes before the stated start time unless otherwise noted. No bids will be accepted unless the bidder has registered and received a pre-numbered bid card. A Driver's license, passport, or other state issued I.D. must be presented in order to receive a bid card.

## 2. Properties Offered

### A. Overview

**"Foreclosing Governmental Unit" ("FGU")** is a term used by the Michigan tax foreclosure statute and is typically the office of the County Treasurer in the county where the offered property is located. However, in some instances the FGU is the State of Michigan Department of Treasury.

Unless otherwise noted, the "Seller" is the County Treasurer, acting as the "FGU". The Auctioneer is Title Check, LLC acting as the authorized agent of the Seller/FGU.

The attached list of parcels has been approved for sale at public auction and each is identified by a sale unit number. The Seller reserves the right to pull parcels from the sale at any time prior to the auction.

According to state statutes, **ALL PRIOR** liens (other than certain DEQ liens and other limited exceptions), encumbrances and taxes **are cancelled** by Circuit Court Order. The FGU has attempted to include in the minimum bid, liens that have accrued since foreclosure, such as nuisance or water bills; **all other outstanding bills since foreclosure are the responsibility of the buyer**. These properties are subject to any state, county, or local zoning or building ordinances. The FGU does not guarantee the usability or access to any of these lands.

### B. Know What You Are Buying

It is the **responsibility of the prospective purchaser to do THEIR OWN RESEARCH** as to the suitability of any offered property for any intended purpose. The FGU and the Auctioneer make no warranty, guaranty, or representation of any kind concerning, but not limited to, the merchantability of title, boundary lines, location of improvements, availability of land divisions, easements or right to access by public street, utility presence or location, or any other physical, structural, or legal condition regarding any parcel offered for sale.

Prospective buyers should, prior to the auction, **personally visit and inspect any offered property** they wish to purchase. However, prior to purchase at the auction, **STRUCTURES MAY NOT BE ENTERED** without the **WRITTEN PERMISSION** of the FGU. Some structures may be occupied and occupants should not be disturbed.

### C. Reservations

At the sole option of the FGU, a reverter clause may be included in any deed issued to a winning bidder which prohibits the future severing of mineral rights (if any) and/or splitting/subdividing any purchased property into smaller parcels which do not meet local zoning rules or otherwise comply with applicable regulations relating to the splitting of property. If such a reverter clause is included, a violation thereof will result the property reverting to the FGU without refund.

Pursuant to state statutes, where the State of Michigan Department of Treasury is acting as Seller/FGU, deeds issued may contain the following reservations and stipulations:

- *"Excepting and reserving to the State of Michigan, all aboriginal antiquities including mounds, earthworks, forts, burial and village sites, mines or other relics and also reserving the right to explore and excavate for the same, by and through its duly authorized agents and employees, pursuant to the provisions of Part 761, Aboriginal Records and Antiquities, of the Natural Resources and Environmental Protection Act, Act 451 of the Public Acts of 1994, MCL 324.76101 to 324.76118 as amended."*
- *"Saving and reserving unto the People of the State of Michigan the rights of ingress and egress over and across all of the above-mentioned descriptions of land lying along any watercourse or stream, pursuant to the provisions of Part 5, Act 451, P.A. 1994, as amended, MCL 324.503, as amended."*

Additionally, the State may, in its discretion, reserve the mineral rights to offered property as follows:

- *"Saving and excepting and always reserving unto the said State of Michigan, all mineral, coal, oil and gas, lying and being on, within or under the said lands whereby conveyed, except sand, gravel, clay or other nonmetallic minerals with full and free liberty and power to the said State of Michigan, its duly authorized officers, representatives and assigns, and its or their lessees, agents and workmen, and all other persons by its or their authority or permission, whether already given or hereafter to be given at any time and from time to time, to enter upon said lands and take all usual, necessary, or convenient means for exploring, mining, working, piping, getting, laying up, storing, dressing, make merchantable, and taking away the said mineral, coal, oil and gas, except sand, gravel, clay or other nonmetallic minerals."*

If the State does not reserve mineral rights as described above, the State may nonetheless restrict the severance of mineral rights from offered property as follows:

- *"This conveyance hereby restricts the Grantee from severing oil, gas, mineral and other subsurface rights from the surface rights any time in the future. If the Grantee severs the subsurface rights from the surface rights, the subsurface rights will revert to the State of Michigan."*

### 3. Bidding

#### A. Overview

Generally, each sale unit will be offered separately and in the order appearing on the attached list. Sales are typically conducted both online and live on-site, simultaneously. The sale will be awarded to the individual bidding the highest amount equal to or greater than the starting bid by either method. Typically, the Auctioneer will make available a list of parcels prior-to-sale and will provide an opportunity for on-site bidders to designate "parcels of interest" prior to the start of the sale. The Auctioneer may skip over those parcels upon which no party has placed an online bid or designated as a parcel of interest prior to the start of the sale or during the process of live-bidding. The Auctioneer may offer a second request round of unsold parcels to be offered at the same opening bid after the first round of bidding has been completed. Such second request round will be available to those online and on-site bidders as may be in attendance at that time.

#### B. Starting Bid Price

The starting bid prices are shown on the list included in the sale book. At auctions with a minimum bid, no sales can be made for less than the starting price indicated. The starting bid for no-minimum-bid sales will be at the discretion of the FGU.

However, any person who held an interest in a property offered for sale at the time a judgment of foreclosure was entered against such property **must pay at least minimum bid** for such property even if purchased at a no-minimum auction.

#### C. Bid Increments

Bids will **only** be accepted in the following increments:

<u>Bid Amount</u>	<u>Increment</u>
\$100 to \$999	\$ 50.00
\$1000 to \$9999	\$ 100.00
Over \$10,000	\$ 250.00

Floor bidders **MUST** bid in the same increments as online and absentee bidders. **We will not accept irregular bid increments** in fairness to online and absentee bidders.

#### D. Eligible Bidders

Any person who meets the following requirements may register as a bidder and receive a pre-numbered bid card:

- The person does not directly or indirectly hold more than a minimal legal interest in any property with delinquent property taxes which is located in the county in which the person intends to purchase property.
- The person is not directly or indirectly responsible for any unpaid civil fines for a violation of any ordinance, including but not limited to any ordinance authorized by section 4/ of The Home Rule City Act, 1909 PA 279, as amended, MCL 117.4/, in the local tax collection unit in which the person intends to purchase property.
- The person has not been banned or otherwise excluded by the FGU from participation in the public sale and is not acting on behalf of another who has been banned or excluded.

Any person unable to attend the sale can be represented at the sale by an agent or other representative with authority to bid and otherwise represent the person. However, any party utilizing an agent to bid on their behalf must still meet the above listed requirements. **The registered bidder is legally and financially responsible for all parcels bid upon whether acting on their own behalf or as the agent of another.**

#### E. Absentee Bidding

Absentee bids will be accepted in increments up to the amount that you pre-approve. Absentee bids require a \$1,000 pre-authorization on a major credit card or a \$1,000 deposit before the bid will be accepted. Absentee bids must be submitted 48 hours prior to the date of the auction by calling 1-800-259-7470. An absentee bid form is also available on [www.tax-sale.info](http://www.tax-sale.info). Additionally, absentee bids may be submitted up until one hour before the sale if submitted online.

#### F. Online Bidding

On-line bidding will be available on the day of the auction at [www.tax-sale.info](http://www.tax-sale.info) unless otherwise indicated. An auction may be conducted entirely online as determined by the FGU.

#### G. Bids are Binding

An oral and/or live bid accepted at public auction or placed online through [www.tax-sale.info](http://www.tax-sale.info) is a legal and binding contract to purchase. The FGU reserves the right to reject any or all bids.

#### H. Limitations on Bidding

The FGU and Auctioneer reserve the right to limit the number of bids placed per auction for any bidder or group or bidders for any reason.

## I. Attempts to Bypass These Rules and Regulations

The FGU and Auctioneer reserve the right to reject the bids of any bidder who appears to be acting on behalf of another person who is ineligible to bid on their own.

## 4. Terms of Sale

### A. Payment

- **Live On-Site Bidders**
  - **The full purchase price must be paid in full on the day of the sale, within half an hour of the end of the Auction.** No purchases can be made on a time-payment plan.
  - **NO CASH** will be accepted.
  - If the total purchase price is **less than \$1,000.00**, full payment may be made by certified check, personal check, money order, Visa, MasterCard, or Discover.
  - If the total purchase price is **greater than \$1,000.00**, a portion of the total purchase price must be paid by **certified funds** as follows:
    - If the total purchase price is **greater than \$1,000.00 but less than \$50,000.00**, **the first \$1,000.00 must be paid in certified funds.**
    - If the total purchase price is **\$50,000.00 or greater**, **the first \$5,000.00 must be paid in certified funds.**
  - **Any remaining balance** beyond the required certified funds may be paid by certified check, personal check, money order, Visa, MasterCard, or Discover.
- **Online & Absentee Bidders**
  - **The full purchase price must be paid in full WITHIN 5 BUSINESS DAYS OF THE SALE.** Payment may be made by certified funds, money order, Visa, MasterCard, Discover, or wire transfer. No purchases can be made on a time-payment plan.
  - Online and absentee bidding require a \$1,000 pre-authorization on a Visa, MasterCard, or Discover credit card or a \$1,000 deposit before any bids will be accepted. Buyer's failure to consummate an online or absentee purchase will result in the forfeiture of this \$1,000.

The full purchase price consists of the final bid price *plus* a buyer's premium of 10% of the bid price, any outstanding taxes due on the property including associated fees and penalties, and a \$30.00 deed recording fee. **Any portion of the purchase price paid by credit card will be assessed an additional fee of 2.75%.**

### B. Refund Checks

In some instances it may be necessary to refund to a buyer some or all of the payment tendered by such buyer. This can occur, for example, when a buyer tenders certified funds in an amount greater than their total obligation or if the sale is cancelled under any provision of these Rules and Regulations. Refund checks will be processed and mailed to buyer within approximately ten days of the time such refund becomes due to buyer. Buyer shall cash such refund check within 90 days of the date listed on such refund check. If buyer fails to cash such refund check within 90 days, such refund check shall become void and buyer shall forfeit any refunded amount.

### C. Dishonored Payment

A buyer whose payment is dishonored for any reason will forfeit, as liquidated damages, any purchase price paid as follows:

- A buyer whose total purchase price was less than \$1,000.00 will forfeit any portion of the total purchase price tendered and not dishonored including any credit card chargebacks which are successfully reversed by Seller.
- A buyer whose total purchase price was greater than \$1,000.00 will forfeit that portion of their total purchase price which was required to be tendered in certified funds as required by part 4A above.

**Furthermore, the FGU may seek to prosecute any buyer whose payment is dishonored or who fails to consummate a purchase.**

Any buyer who fails to consummate a purchase will be banned from bidding at all future land auctions.

The buyer's premium is not subject to any broker fees. There are no co-brokerage or other fees or rebates available.

### D. Eligible Buyers

In order to take title to purchased property, each party that will be listed on the deed must meet **ALL of the following requirements at the time their winning bid is accepted:**

- i. The party does not directly or indirectly hold more than a minimal legal interest in any property with delinquent property taxes which is located in the county in which the purchased property is located
- ii. The party is not directly or indirectly responsible for any unpaid civil fines for a violation of any ordinance, including but not limited to any ordinance authorized by section 4I of The Home Rule City Act, 1909 PA 279, as amended, MCL 117.4I, in the local tax collection unit in which the purchased property is located.

- iii. The party is not purchasing, for less than minimum bid, any property in which the party held an interest at the time a judgment of foreclosure was entered against such property nor is the party purchasing property, for less than minimum bid, on behalf of any other party who held such an interest.
- iv. The party has not been banned or otherwise excluded by the FGU from participation in the public sale and is not owned or controlled by a person or entity that has been banned or excluded.

At the time payment is tendered after the auction, the buyer will be required to execute an affidavit affirming, **under penalty of perjury**, that each party that the buyer desires to have listed on the deed to purchased property meets the above requirements.

The FGU **will not issue a deed** and the sale will be canceled if the buyer or any party that the buyer seeks to list on the deed does not meet the eligibility requirements outlined in this section at the time the buyer's bid was accepted, the buyer fails to execute this affidavit, or if any affirmations made in this affidavit are untrue. If the FGU is forced to cancel any sale due to the buyer's noncompliance with this provision, the buyer will be banned from participating at all future land auctions and the buyer will **forfeit the first \$350 paid** on each parcel and any buyer's premium paid as liquidated damages for breach of contract by the buyer. If the buyer is an online or absentee purchaser and no payment has yet been tendered at the time noncompliance is discovered and the sale cancelled, the buyer will forfeit \$350 per cancelled parcel from the \$1000 authorization described in Section 4(A) above up to a maximum of \$1000 as liquidated damages for breach of contract by the buyer. Furthermore, the FGU may pursue **CRIMINAL PERJURY CHARGES** against any buyer who makes a false affirmation on the affidavit required under this or any other provision of these Rules and Regulations.

#### E. Sale to Entities

In order to ensure that individuals do not utilize legal entities to circumvent the sale and ownership restrictions contained in MCL 211.78m(2), the FGU will only sell property to legal entities under certain circumstances. Any buyer desiring to deed a purchased property to a legal entity must disclose the name and address of all officers, shareholders, partners, members, or other parties, regardless of title, who own any portion of that entity. However, such disclosure will not be required if one or more of the following exceptions are applicable:

- The Entity held a prior recorded interest in each purchased property.
- The Entity is a division, agency, or instrumentality of federal, state, or local government.
- The Entity is a Homeowners Association, Condo Association, or other such organization that exercises control over each purchased property.
- The Entity is a publicly traded company listed on a national securities exchange.
- The Entity is a nonprofit corporation and is qualified as tax exempt under IRC §501.

At the time payment is tendered after the auction, any buyer desiring to deed a purchased property to a legal entity will be required to execute an affidavit affirming, **under penalty of perjury**, that the entity is exempt from disclosure under one of the five exceptions listed above, or in the event that no exception is applicable, the names and addresses of all parties owning any portion of that legal entity.

#### F. Cancellation Policy

Prior to the issuance of a deed, the FGU has the right, in its sole discretion, to cancel any sale for any of the following reasons: transfer of the property at issue is stayed or enjoined by a court of competent jurisdiction; any of the reasons outlined in MCL 211.78m(9); the property at issue becomes the subject of litigation; a defect is discovered in the underlying foreclosure or sale procedures relating to the property at issue; any other reason authorized under these Rules and Regulations.

#### G. Property Transfer Affidavit

It is the responsibility of the buyer to file a **Property Transfer Affidavit** with the *assessor for the city or township* where the property is located **within 45 days of the transfer**. If it is not timely filed, a **penalty of \$5/day (maximum \$200) applies**. The information on this Property Transfer Affidavit is NOT CONFIDENTIAL.

### 5. Purchase Receipts

Successful bidders at the sale will be issued a receipt for their purchases upon payment. This receipt does not convey an interest in title to the purchased property unless and until a deed has been issued and recorded. Buyers will be entitled to deeds for the property descriptions identified by the sale unit numbers noted on the receipt unless the sale is cancelled under these Rules and Regulations or other statutory authority.

### 6. Title Being Conveyed

Quit-claim deeds will be issued conveying **only such title as received by the FGU through tax foreclosure**. Title insurance companies may or may not issue title insurance on properties purchased at this sale. The FGU makes no representation as to the availability of title insurance and the **unavailability of title insurance is not grounds for reconveyance to the FGU**. The buyer may incur legal costs for Quiet Title Action to satisfy the requirements of title insurance companies in order to obtain title insurance.

### 7. Special Assessments

Special assessment installments through the most recent prior tax year are included in the starting bids. Seller has attempted to identify those parcels subject to special assessments with a note on the parcel detail page. Parcels sold are subject to property taxes for the entire current tax year, as well as current and future installments of any outstanding bonded assessments. All bidders should contact the appropriate city, village, or township offices to determine if there are any outstanding bonded assessments for future tax years on the properties being offered.

## 8. Possession of Property

### A. Possession Pending Deed Delivery

It is recommended that the buyer DOES NOT take physical possession of any purchased property until a deed has been executed and delivered to the buyer. The buyer risks financial loss for any improvements or investments made on purchased property *before the delivery of a deed* in the event that the Foreclosing Governmental Unit exercises their right to cancel the sale. Until the buyer pays for all purchases in full and receives a deed, no activities should be conducted on the site other than:

#### ***I. Securing the Property***

Buyer should take steps to protect their equity in purchased property **by securing vacant structures against entry and obtaining (homeowners) insurance for occupied property**. Buyer is responsible for contacting local units of government **to prevent possible demolition of structures situated on purchased property**.

#### ***II. Assessing Potential Contamination***

Buyer may immediately wish to conduct a Baseline Environmental Assessment (BEA) to assess the condition of potentially contaminated properties. More information about BEAs can be found at [http://www.michigan.gov/deq/0,4561,7-135-3311\\_4109\\_4212---,00.html](http://www.michigan.gov/deq/0,4561,7-135-3311_4109_4212---,00.html)

### B. Occupied Property

**Buyers will be responsible for all procedures and legal requirements for conducting evictions.** Occupants of purchased property should be treated as tenants holding over under an expired lease. This means that legal eviction and/or possession proceedings will be necessary to effectuate control over such property if occupants will not otherwise leave voluntarily. You may wish to consult a licensed attorney for additional guidance. Buyers may not commence eviction proceedings until a deed to the applicable occupied property has been issued by the FGU.

## 9. Additional Conditions

The buyer accepts the premises in its present "as is" condition, and releases the Foreclosing Governmental Unit and employees and agents including the Auctioneer from all liability whatsoever arising from any condition of the premises, whether now known or subsequently discovered, including but not limited to all claims based on environmental contamination of the premises.

A person who acquires property that is contaminated (a "facility" pursuant to Section 20201(1)(1) of Natural Resources and Environmental Act (NREPA), 1994 P.A. 451, as amended) as a result of release(s) of a hazardous substance(s) may become liable for all costs of cleaning up the property and any other properties impacted by the release(s). Liability may be imposed upon the person acquiring the property even in the absence of any personal responsibility for, or knowledge of, the release. Protection from such liability may be obtained by conducting a Baseline Environmental Assessment (BEA) as provided for under Section 20126(1) (c) of NREPA. However, the BEA must be conducted prior to or within 45 days of the earliest date of purchase or occupancy of the property. Persons who acquire contaminated property may have "due care" obligations under Section 20107a of NREPA even if they conduct a BEA and are not liable for the contamination.

Pursuant to part 201 of NREPA, the person(s) responsible for an activity causing a release at the property is obligated to pursue response activities at the property. Consequently, the non-labile purchaser may be required to provide access to the liable party to conduct response activities at the property in the future. Section 20116 of the NREPA requires that a person who has knowledge that their property is contaminated provide a written notice to the purchaser or other person to whom the property is transferred which discloses the general nature and extent of the release. Additional disclosure obligations may also apply at the time the property, or an interest in the property, is transferred. Accordingly, the Foreclosing Governmental Unit recommends that a person who is interested in acquiring property at this auction contact an attorney or an environmental consultant for advice prior to the acquisition of any property that may be contaminated.

## 10. Deeds

### A. Deed Execution and Delivery

All monies collected will initially be deposited in escrow. Once payment is cleared and verified, funds will be disbursed to the FGU and deeds will be executed and recorded as required by law. The FGU will deliver the deeds to the Register of Deeds for recording and remit them to the buyer after recording is complete. IT CAN TAKE 6 TO 8 WEEKS FOR DEEDS TO ARRIVE. PLEASE BE PATIENT.

### B. Restrictive Covenants

Some counties sell properties with deed covenants that will attach to the property. These parcels will be noted online, along with the terms being required. **Please carefully review the information for each specific parcel to make sure you understand the terms of sale.**

## 11. Property Taxes & Other Fees

All property taxes and associated fees that have accrued on or after April 1 in the year that a property is auctioned must be paid **at the time of checkout** after the auction along with the final bid price, buyer's premium, and deed recording fee.

Furthermore, please understand that the **buyer is responsible for all other fees and liens that accrue against a property on or after April 1 in the year that a property is auctioned**. These items are not prorated. They include, but are not limited to, municipal utility or ordinance fees, and condo or property owner association fees or dues. This can also include demolition and other nuisance abatement costs. These fees and expenses **are not collected at the auction** and must be paid by the buyer after taking title to any purchased property which is subject to such fees and expenses.

## 12. Other

### A. Personal Property

Personal property (*items not attached to buildings and lands such as furnishings, automobiles, etc.*) located on offered property or within structures situated on offered property was not taxed as part of the real estate, does not belong to the FGU, and is not sold to the buyer of the real estate in this transaction. You are advised to contact former owners of any purchased property and provide them an opportunity to reclaim contents. A certified and first class mail notice to their last known address is strongly advised. It is your responsibility to identify and properly handle items of personal property. The FGU and Auctioneer make no representations or warranties as to the presence of personal property or as to the legal requirements for dispensing with such property.

**Mobile Homes may be titled separately and considered *personal property*.** It is the buyer's responsibility to determine the legal status of any mobile home located on purchased property. A useful first step could include determining whether an Affidavit of Affixture of Manufactured Home has been executed and recorded as outlined in MCL 125.2330i.

### B. Mineral Rights

You will receive any and all title that the FGU obtains via their tax foreclosure through a quit-claim deed. If the owner of the surface rights to the property also owned the mineral rights, those will become part of your title interest. However, this will be subject to the rights of any outstanding leaseholders of oil, gas, mineral or storage rights. You would be obligated to honor the balance of any remaining lease (with automatic renewals if so written). However, if the mineral rights have been severed (split from the surface rights) and are owned by a third party, they have not been foreclosed by the FGU and are not included in the mineral rights conveyed to you. In either instance, the leaseholder still has the right to explore for and/or extract minerals under the terms of any outstanding agreement.

### C. Applicability of These Rules and Regulations

All sales are subject to these Rules and Regulations. Furthermore, additional terms and conditions which apply to one or more specific auction lots may be printed in the auction sale booklets and/or online at [www.tax-sale.info](http://www.tax-sale.info) ("**Additional Terms**"). If such Additional Terms apply, they will be listed on the online lot description page and/or in the printed sale book for the lot(s) to which they apply. Such Additional Terms, if existing, shall be considered a part of these Rules and Regulations for the specific auction lots to which they apply. In some cases, the Auctioneer is required to relate certain information orally on the day of sale when it is not possible to include such information in the printed sale booklets or in these Rules and Regulations ("**Oral Terms**"). In such a situation, the Auctioneer will clearly state that they are relating an additional condition of sale which either has not been previously printed or which modifies some portion of these Rules and Regulations. If the Auctioneer makes such a specific announcement, the Oral Terms shall take precedence over these Rules and Regulations where applicable. Finally, additional conditions are included on the printed auction receipt given to the buyer at the time of checkout ("**Terms of Sale**"). All sales are subject to these Terms of Sale as well. These Rules and Regulations, Additional Terms, Oral Terms, and Terms of Sale are intended to be compatible. To the extent that a conflict arises between any of these sources, they shall be interpreted in the following order of priority: Oral Terms, Additional Terms, Terms of Sale, Rules and Regulations.

These Rules and Regulations are subject to change and should be reviewed frequently.

**NOTE: Please review the terms at the top of each online catalog and the addendum pages in the printable sale books for county-specific purchase terms. Failure to follow the specific rules posted for each county could result in cancellation of sale and/or the assessment of liquidated damages as provided by these Rules and Regulations.**

## **Important Information Regarding Rules and Regulations**

**The Rules and Regulations immediately following this page are applicable to the following catalogs which consist of parcels owned by the Michigan Department of Natural Resources and which are offered for sale in this auction as part of DNR's surplus lands disposition process:**

- Menominee DNR

# Michigan DNR Land Sales

## Rules and Regulations

### 1. Registration

Registration for live on-site auctions will begin 30 minutes before the stated start time unless otherwise noted. No bids will be accepted unless the bidder has registered and received a pre-numbered bid card. A Driver's license, passport, or other state issued I.D. must be presented in order to receive a bid card.

### 2. Properties Offered

#### A. Overview

The attached list of parcels has been approved for sale at public auction by the Michigan Department of Natural Resources (the "DNR"). Each parcel is identified by a sale unit number. The DNR reserves the right to pull parcels from the sale at any time prior to the auction.

Unless otherwise noted, the "Seller" is the DNR. The Auctioneer is Title Check, LLC acting as the authorized agent of the Seller/DNR.

These properties are subject to any state, county, or local zoning or building ordinances. The DNR does not guarantee the usability or access to any of these lands. The properties are sold based upon their LEGAL DESCRIPTION ONLY (Subdivision name and Lot number, or Metes and Bounds measured description). While effort has been made to ensure that the addresses, parcel sizes, maps, and/or photos are accurate, you are relying on your own investigation and information when purchasing this property. All parcels are sold "as is where is" and there are NO REFUNDS.

#### B. Know What You Are Buying

It is the **responsibility of the prospective purchaser to do THEIR OWN RESEARCH** as to the suitability of any offered property for any intended purpose. The DNR and the Auctioneer make no warranty, guaranty, or representation of any kind concerning, but not limited to, the merchantability of title, boundary lines, location of improvements, availability of land divisions, easements or right to access by public street, utility presence or location, or any other physical, structural, or legal condition regarding any parcel offered for sale.

Prospective buyers should, prior to the auction, **personally visit and inspect any offered property** they wish to purchase. However, prior to purchase at the auction, **STRUCTURES MAY NOT BE ENTERED** without the **WRITTEN PERMISSION** of the DNR. Some structures may be occupied and occupants should not be disturbed.

#### C. Reservations

Pursuant to state statutes, deeds issued may contain the following reservations and stipulations:

- *"Excepting and reserving to the State of Michigan, all aboriginal antiquities including mounds, earthworks, forts, burial and village sites, mines or other relics and also reserving the right to explore and excavate for the same, by and through its duly authorized agents and employees, pursuant to the provisions of Part 761, Aboriginal Records and Antiquities, of the Natural Resources and Environmental Protection Act, Act 451 of the Public Acts of 1994, MCL 324.76101 to 324.76118 as amended."*
- *"Saving and reserving unto the People of the State of Michigan the rights of ingress and egress over and across all of the above-mentioned descriptions of land lying along any watercourse or stream, pursuant to the provisions of Part 5, Act 451, P.A. 1994, as amended, MCL 324.503, as amended."*

Additionally, the DNR may, in its discretion, reserve the mineral rights to offered property as follows:

- *"Saving and excepting and always reserving unto the said State of Michigan, all mineral, coal, oil and gas, lying and being on, within or under the said lands whereby conveyed, except sand, gravel, clay or other nonmetallic minerals with full and free liberty and power to the said State of Michigan, its duly authorized officers, representatives and assigns, and its or their lessees, agents and workmen, and all other persons by its or their authority or permission, whether already given or hereafter to be given at any time and from time to time, to enter upon said lands and take all usual, necessary, or convenient means for exploring, mining, working, piping, getting, laying up, storing, dressing, make merchantable, and taking away the said mineral, coal, oil and gas, except sand, gravel, clay or other nonmetallic minerals."*

If the DNR does not reserve mineral rights as described above, the DNR may nonetheless restrict the severance of mineral rights from offered property as follows:

- *"This conveyance hereby restricts the Grantee from severing oil, gas, mineral and other subsurface rights from the surface rights any time in the future. If the Grantee severs the subsurface rights from the surface rights, the subsurface rights will revert to the State of Michigan."*

### 3. Bidding

#### A. Overview

Generally, each sale unit will be offered separately and in the order appearing on the attached list. Sales are typically conducted both online and live on-site, simultaneously. The sale will be awarded to the individual bidding the highest amount equal to or greater than the starting bid by either method. Typically, the Auctioneer will make available a list of parcels prior-to-sale and will provide an opportunity for on-site bidders to designate "parcels of interest" prior to the start of the sale. The Auctioneer may skip over those parcels upon which no party has placed an online bid or designated as a parcel of interest prior to the start of the sale or during the process of live-bidding. The Auctioneer may offer a second request round of unsold parcels to be offered at the same opening bid after the first round of bidding has been completed. Such second request round will be available to those online and on-site bidders as may be in attendance at that time.

## B. Starting Bid Price

The starting bid prices are shown on the list included in the sale book. At auctions with a minimum bid, no sales can be made for less than the starting price indicated. The starting bid for no-minimum-bid sales will be at the discretion of the DNR.

## C. Bid Increments

Bids will **only** be accepted in the following increments:

<u>Bid Amount</u>	<u>Increment</u>
\$100 to \$999	\$ 50.00
\$1000 to \$9999	\$ 100.00
Over \$10,000	\$ 250.00

Floor bidders **MUST** bid in the same increments as online and absentee bidders. **We will not accept irregular bid increments** in fairness to online and absentee bidders.

## D. Eligible Bidders

Any person who meets the following requirements may register as a bidder and receive a pre-numbered bid card:

- The person does not directly or indirectly hold more than a minimal legal interest in any property with delinquent property taxes which is located in the county in which the person intends to purchase property.
- The person is not directly or indirectly responsible for any unpaid civil fines for a violation of any ordinance, including but not limited to any ordinance authorized by section 4/ of The Home Rule City Act, 1909 PA 279, as amended, MCL 117.4/, in the local tax collection unit in which the person intends to purchase property.
- The person has not been banned or otherwise excluded by the DNR from participation in the public sale and is not acting on behalf of another who has been banned or excluded.

Any person unable to attend the sale can be represented at the sale by an agent or other representative with authority to bid and otherwise represent the person. However, any party utilizing an agent to bid on their behalf must still meet the above listed requirements. **The registered bidder is legally and financially responsible for all parcels bid upon whether acting on their own behalf or as the agent of another.**

## E. Absentee Bidding

Absentee bids will be accepted in increments up to the amount that you pre-approve. Absentee bids require a \$1,000 pre-authorization on a major credit card or a \$1,000 deposit before the bid will be accepted. Absentee bids must be submitted 48 hours prior to the date of the auction by calling 1-800-259-7470. An absentee bid form is also available on [www.tax-sale.info](http://www.tax-sale.info). Additionally, absentee bids may be submitted up until one hour before the sale if submitted online.

## F. Online Bidding

On-line bidding will be available on the day of the auction at [www.tax-sale.info](http://www.tax-sale.info) unless otherwise indicated. An auction may be conducted entirely online as determined by the DNR.

## G. Bids are Binding

An oral and/or live bid accepted at public auction or placed online through [www.tax-sale.info](http://www.tax-sale.info) is a legal and binding contract to purchase. The DNR reserves the right to reject any or all bids.

## H. Limitations on Bidding

The DNR and Auctioneer reserve the right to limit the number of bids placed per auction for any bidder or group of bidders for any reason.

## I. Attempts to Bypass These Rules and Regulations

The DNR and Auctioneer reserve the right to reject the bids of any bidder who appears to be acting on behalf of another person who is ineligible to bid on their own.

# 4. Terms of Sale

## A. Payment

- **Live On-Site Bidders**
  - **The full purchase price must be paid in full on the day of the sale, within half an hour of the end of the Auction.** No purchases can be made on a time-payment plan.
  - **NO CASH** will be accepted.
  - If the total purchase price is **less than \$1,000.00**, full payment may be made by certified check, personal check, money order, Visa, MasterCard, or Discover.

- If the total purchase price is **greater than \$1,000.00**, a portion of the total purchase price must be paid by **certified funds** as follows:
  - If the total purchase price is **greater than \$1,000.00 but less than \$50,000.00, the first \$1,000.00 must be paid in certified funds.**
  - If the total purchase price is **\$50,000.00 or greater, the first \$5,000.00 must be paid in certified funds.**
- **Any remaining balance** beyond the required certified funds may be paid by certified check, personal check, money order, Visa, MasterCard, or Discover.
- **Online & Absentee Bidders**
  - **The full purchase price must be paid in full WITHIN 5 BUSINESS DAYS OF THE SALE.** Payment may be made by certified funds, money order, Visa, MasterCard, Discover, or wire transfer. No purchases can be made on a time-payment plan.
  - Online and absentee bidding require a \$1,000 pre-authorization on a Visa, MasterCard, or Discover credit card or a \$1,000 deposit before any bids will be accepted. Buyer's failure to consummate an online or absentee purchase will result in the forfeiture of this \$1,000.

The full purchase price consists of the final bid price *plus* a buyer's premium of 10% of the bid price, any outstanding taxes due on the property including associated fees and penalties, and a \$30.00 deed recording fee. **Any portion of the purchase price paid by credit card will be assessed an additional fee of 2.75%.**

## B. Refund Checks

In some instances it may be necessary to refund to a buyer some or all of the payment tendered by such buyer. This can occur, for example, when a buyer tenders certified funds in an amount greater than their total obligation or if the sale is cancelled under any provision of these Rules and Regulations. Refund checks will be processed and mailed to buyer within approximately ten days of the time such refund becomes due to buyer. Buyer shall cash such refund check within 90 days of the date listed on such refund check. If buyer fails to cash such refund check within 90 days, such refund check shall become void and buyer shall forfeit any refunded amount.

## C. Dishonored Payment

A buyer whose payment is dishonored for any reason will forfeit, as liquidated damages, any purchase price paid as follows:

- A buyer whose total purchase price was less than \$1,000.00 will forfeit any portion of the total purchase price tendered and not dishonored including any credit card chargebacks which are successfully reversed by Seller.
- A buyer whose total purchase price was greater than \$1,000.00 will forfeit that portion of their total purchase price which was required to be tendered in certified funds as required by part 4A above.

**Furthermore, the DNR may seek to prosecute any buyer whose payment is dishonored or who fails to consummate a purchase.**

Any buyer who fails to consummate a purchase will be banned from bidding at all future land auctions.

The buyer's premium is not subject to any broker fees. There are no co-brokerage or other fees or rebates available.

## D. Eligible Buyers

In order to take title to purchased property, each party that will be listed on the deed must meet **ALL of the following requirements at the time their winning bid is accepted:**

- i. The party does not directly or indirectly hold more than a minimal legal interest in any property with delinquent property taxes which is located in the county in which the purchased property is located
- ii. The party is not directly or indirectly responsible for any unpaid civil fines for a violation of any ordinance, including but not limited to any ordinance authorized by section 4/ of The Home Rule City Act, 1909 PA 279, as amended, MCL 117.4/, in the local tax collection unit in which the purchased property is located.
- iii. The party is not purchasing, for less than minimum bid, any property in which the party held an interest at the time a judgment of foreclosure was entered against such property nor is the party purchasing property, for less than minimum bid, on behalf of any other party who held such an interest.
- iv. The party has not been banned or otherwise excluded by the DNR from participation in the public sale and is not owned or controlled by a person or entity that has been banned or excluded.

At the time payment is tendered after the auction, the buyer will be required to execute an affidavit affirming, **under penalty of perjury**, that each party that the buyer desires to have listed on the deed to purchased property meets the above requirements.

The DNR **will not issue a deed** and the sale will be canceled if the buyer or any party that the buyer seeks to list on the deed does not meet the eligibility requirements outlined in this section at the time the buyer's bid was accepted, the buyer fails to execute this affidavit, or if any affirmations made in this affidavit are untrue. If the DNR is forced to cancel any sale due to the buyer's noncompliance with this provision, the buyer will be banned from participating at all future land auctions and the buyer will **forfeit the first \$350 paid** on each parcel and any buyer's premium paid as liquidated damages for breach of contract by the buyer. If the buyer is an online or absentee purchaser and no payment has yet been tendered at the time noncompliance is discovered and the sale cancelled, the buyer will forfeit \$350 per cancelled parcel from the \$1000 authorization described in Section 4(A) above up to a maximum of \$1000 as liquidated damages for breach of contract by the buyer. Furthermore, the DNR may pursue **CRIMINAL PERJURY CHARGES** against any buyer who makes a false affirmation on the affidavit required under this or any other provision of these Rules and Regulations.

## E. Cancellation Policy

At its sole discretion, the DNR reserves the right to cancel any sale at any time up until delivery of the deed.

## F. Property Transfer Affidavit

It is the responsibility of the buyer to file a **Property Transfer Affidavit** with the *assessor for the city or township* where the property is located **within 45 days of the transfer**. If it is not timely filed, **a penalty of \$5/day (maximum \$200) applies**. The information on this Property Transfer Affidavit is NOT CONFIDENTIAL.

## 5. Purchase Receipts

Successful bidders at the sale will be issued a receipt for their purchases upon payment. This receipt does not convey an interest in title to the purchased property unless and until a deed has been issued and recorded. Buyers will be entitled to deeds for the property descriptions identified by the sale unit numbers noted on the receipt unless the sale is cancelled under these Rules and Regulations or other statutory authority.

## 6. Title Being Conveyed

Quit-claim deeds will be issued conveying **only such title as is possessed by the DNR at the time of sale**. Title insurance companies may or may not issue title insurance on properties purchased at this sale. The DNR makes no representation as to the availability of title insurance and the **unavailability of title insurance is not grounds for reconveyance to the DNR**. The buyer may incur legal costs for Quiet Title Action to satisfy the requirements of title insurance companies in order to obtain title insurance.

## 7. Special Assessments

Parcels sold are subject to property taxes that become due and payable on or after the day of auction, as well as current and future installments of any outstanding bonded assessments. All bidders should contact the appropriate city, village, or township offices to determine if there are any outstanding bonded assessments for future tax years on the properties being offered.

## 8. Possession of Property

### A. Possession Pending Deed Delivery

It is recommended that the buyer DOES NOT take physical possession of any purchased property until a deed has been executed and delivered to the buyer. The buyer risks financial loss for any improvements or investments made on purchased property *before the delivery of a deed* in the event that the DNR exercises its right to cancel the sale. Until the buyer pays for all purchases in full and receives a deed, no activities should be conducted on the site other than:

#### I. Securing the Property

Buyer should take steps to protect their equity in purchased property **by securing vacant structures against entry and obtaining (homeowners) insurance for occupied property**. Buyer is responsible for contacting local units of government **to prevent possible demolition of structures situated on purchased property**.

#### II. Assessing Potential Contamination

Buyer may immediately wish to conduct a Baseline Environmental Assessment (BEA) to assess the condition of potentially contaminated properties. More information about BEAs can be found at [http://www.michigan.gov/deq/0,4561,7-135-3311\\_4109\\_4212---,00.html](http://www.michigan.gov/deq/0,4561,7-135-3311_4109_4212---,00.html)

### B. Occupied Property

**Buyers will be responsible for all procedures and legal requirements for conducting evictions.** Occupants of purchased property should be treated as tenants holding over under an expired lease. This means that legal eviction and/or possession proceedings will be necessary to effectuate control over such property if occupants will not otherwise leave voluntarily. You may wish to consult a licensed attorney for additional guidance. Buyers may not commence eviction proceedings until a deed to the applicable occupied property has been issued by the DNR.

## 9. Additional Conditions

The buyer accepts the premises in its present "as is" condition, and releases the DNR and employees and agents including the Auctioneer from all liability whatsoever arising from any condition of the premises, whether now known or subsequently discovered, including but not limited to all claims based on environmental contamination of the premises.

A person who acquires property that is contaminated (a "facility" pursuant to Section 20201(1)(1) of Natural Resources and Environmental Act (NREPA), 1994 P.A. 451, as amended) as a result of release(s) of a hazardous substance(s) may become liable for all costs of cleaning up the property and any other properties impacted by the release(s). Liability may be imposed upon the person acquiring the property even in the absence of any personal responsibility for, or knowledge of, the release. Protection from such liability may be obtained by conducting a Baseline Environmental Assessment (BEA) as provided for under Section 20126(1) (c) of NREPA. However, the BEA must be conducted prior to or within 45 days of the earliest date of purchase or occupancy of the property. Persons who acquire contaminated property may have "due care" obligations under Section 20107a of NREPA even if they conduct a BEA and are not liable for the contamination.

Pursuant to part 201 of NREPA, the person(s) responsible for an activity causing a release at the property is obligated to pursue response activities at the property. Consequently, the non-labile purchaser may be required to provide access to the liable party to conduct response activities at the property in the future. Section 20116 of the NREPA requires that a person who has knowledge that their property is contaminated provide a written notice to the purchaser or other person to whom the property is transferred which discloses the general nature and extent of the release. Additional disclosure obligations may also apply at the time the property, or an interest in the property, is transferred. Accordingly, the DNR recommends that a person who is interested in acquiring property at this auction contact an attorney or an environmental consultant for advice prior to the acquisition of any property that may be contaminated.

## 10. Deeds

### A. Deed Execution and Delivery

All monies collected will initially be deposited in escrow. Once payment is cleared and verified, funds will be disbursed to the DNR and deeds will be executed and recorded as required by law. The DNR will deliver the deeds to the Register of Deeds for recording and remit them to the buyer after recording is complete. IT CAN TAKE 6 TO 8 WEEKS FOR DEEDS TO ARRIVE. PLEASE BE PATIENT.

## 11. Property Taxes & Other Fees

All property taxes that become due and payable on or after the day of auction will be the responsibility of the buyer. The buyer **is responsible for all other fees and liens that accrue against the property on or after the day of the auction.** These items include, but are not limited to, municipal utility or ordinance fees and condo or property owner association fees or dues. This can also include demolition and other nuisance abatement costs. These fees and expenses are not collected at the auction and must be paid by the buyer after taking title to any purchased property which is subject to such fees and expenses.

## 12. Other

### A. Personal Property

Personal property (*items not attached to buildings and lands such as furnishings, automobiles, etc.*) located on offered property or within structures situated on offered property was not taxed as part of the real estate, does not belong to the DNR, and is not sold to the buyer of the real estate in this transaction. You are advised to contact former owners of any purchased property and provide them an opportunity to reclaim contents. A certified and first class mail notice to their last known address is strongly advised. It is your responsibility to identify and properly handle items of personal property. The DNR and Auctioneer make no representations or warranties as to the presence of personal property or as to the legal requirements for dispensing with such property.

**Mobile Homes may be titled separately and considered *personal property*.** It is the buyer's responsibility to determine the legal status of any mobile home located on purchased property. A useful first step could include determining whether an Affidavit of Affixture of Manufactured Home has been executed and recorded as outlined in MCL 125.2330i.

### B. Applicability of These Rules and Regulations

All sales are subject to these Rules and Regulations. Furthermore, additional terms and conditions which apply to one or more specific auction lots may be printed in the auction sale booklets and/or online at [www.tax-sale.info](http://www.tax-sale.info) ("**Additional Terms**"). If such Additional Terms apply, they will be listed on the online lot description page and/or in the printed sale book for the lot(s) to which they apply. Such Additional Terms, if existing, shall be considered a part of these Rules and Regulations for the specific auction lots to which they apply. In some cases, the Auctioneer is required to relate certain information orally on the day of sale when it is not possible to include such information in the printed sale booklets or in these Rules and Regulations ("**Oral Terms**"). In such a situation, the Auctioneer will clearly state that they are relating an additional condition of sale which either has not been previously printed or which modifies some portion of these Rules and Regulations. If the Auctioneer makes such a specific announcement, the Oral Terms shall take precedence over these Rules and Regulations where applicable. Finally, additional conditions are included on the printed auction receipt given to the buyer at the time of checkout ("**Terms of Sale**"). All sales are subject to these Terms of Sale as well. These Rules and Regulations, Additional Terms, Oral Terms, and Terms of Sale are intended to be compatible. To the extent that a conflict arises between any of these sources, they shall be interpreted in the following order of priority: Oral Terms, Additional Terms, Terms of Sale, Rules and Regulations.

These Rules and Regulations are subject to change and should be reviewed frequently.

**NOTE: Please review the terms at the top of each online catalog and the addendum pages in the printable sale books for sale-specific purchase terms. Failure to follow the specific rules posted for each sale could result in cancellation of sale and/or the assessment of liquidated damages as provided by these Rules and Regulations.**

The exterior has steel soffits that are not original and could be simply removed to restore the eaves. Interestingly, there is no interior roof leak issue at all, but this house needs a new roof before anything else is done to preserve it. The property is 3.83 acres, and is a beautiful rolling woods with some nice hardwoods including a good number of mid-life maples. If you're looking for a rehabber in this area, we would not be afraid of this one at all. Salvagable wood floors. <b>Summer Tax Due:</b> \$233.35	25552 IMPERIAL ALLEY MICHIGAMME;	\$3313.75

Most every window on the main floor was busted out, and they kicked in the back door for added measure. Someone since has boarded up most of the main floor. Overall this is a solid, straight little house (it's tiny) that warrants your consideration for rehabbing. It has a newer roof that isn't leaking. There is a lot of unfinished construction here, and we didn't see much in the way of insulation. We would consider this a blank slate ... a shell to redo. But probably a worthy candidate. There are two, 2 story retail/residential buildings connected by a one story addition. The right/south building is in very poor condition and should be considered a dangerous building. There are several places where the floor appears to be ready to collapse. The upper unit is in similar condition. The corner/left/north building is in a more solid condition, but still needs extensive work to make functional again. We're not sure there is any wisdom to partial demolition here. The last owner sold the rear part of the property to the bar next door for patio space. This property has been listed as a NON-COMPLIANT PARCEL under Iron Mountain zoning, and they may not allow its reuse to begin with. Structural and legal issues here. Due to multiple issues, this property MUST be demolished by the buyer and a performance bond will be required to purchase this lot. Please DO NOT BID unless you are able to comply with the performance bond terms listed below: Purchaser will be required to furnish a personal guarantee and cash surety in the amount of \$80,000.00 (the "Surety") to ensure the demolition and remediation of the offered property to a safe and debris-free condition. Certified funds in the amount of the Surety shall be deposited with seller or its designee within 5 business days of the auction. If the Surety is not presented within 5 business days of the auction, the sale shall be canceled for non-performance without refund. Purchaser must present a plan to seller within 60 days of the auction which includes a cost estimate and timeline for the demolition of all structures located on the offered property by a licensed and insured contractor. Such plan must be approved by seller at seller's sole discretion prior to the commencement of demolition and remediation activities. Such demolition and remediation shall be completed within six months of the date of the auction. Demolition shall be considered complete upon certification of seller and at seller's sole discretion. The Surety shall be applied to the costs of demolition and remediation in accordance with the approved plan. Any costs incurred over and above the Surety are the sole responsibility of purchaser. Any Surety which remains after seller certifies the satisfactory completion of all demolition and remediation activities shall be returned to purchaser. If purchaser fails to comply with any of the terms and restrictions stated herein, they shall forfeit the Surety to seller. Seller has the unilateral right to accept, reject or require modification to the Surety prior to its acceptance by seller. Purchaser has NO RIGHT TO POSSESSION or entry upon the offered property until seller executes and records a deed conveying the offered property to purchaser. In theory it is 85 feet wide. However it is subject to the r/o/w of a railroad line ("the Choate lin") and it's not clear how wide that reduction is. So this parcel might be almost all of 85' wide .... or it might be a few feet on either side of the line. You'll want to investigate before bidding. It may be worthless. And that might be exactly why it's here :). There is a collapsed cabin near the east line of this parcel .... we're not sure if that is on this parcel or not. We *think* it belongs to the neighbors. This property probably needs a survey. Please note: We received an email from the neighbors claiming that the collapsed structure is in fact on this property and that the driveway leading to it is on their property. Presently, there are three apartments up and one main floor retail space. Each is separately metered for gas and electric. There is evidence of frozen plumbing here, including a main from the hot water/steam boiler. The basement is damp and cool, almost COLD when it was 90 degrees out in June. There is something resembling FROST in the back of the basement leading us to wonder if there isn't a water main somewhere out back underground that flows near this spot and is doing this by osmosis. The retail space has the original pressed tin ceiling with one "bad spot" that is about 6 square feet. We think it is a somewhat common patern that could be matched for repair. The storefront was likely "remodeled" in the 1940's or 50's. The apartments are bland and uninteresting with spartan kitchens and baths. We could visualize this being an absolutely stunning single residence unit if you were to open up some the partition walls which are not original to begin with. We theorize it was a single unit when first built. There is a two car brick garage out back that has some shifting and settling cracks evidenced. May have been like this for decades. Overall the brick here is solid, with a few locations where it could use some tuckpoint and replacement of bricks in localized areas.</p> <p><b>Summer Tax Due:</b> \$1,915.61</p>	210 S SUFFOLK ST, IRONWOOD;	\$7730.00

There are some immediately apparent issues with the foundation here. The front porch, which is already beleaguered with rot issues, is also detaching from the house ... because the house is MOVING to the west ever so slowly. It is evident from the west (left) foundation wall that the whole thing is shifting. One of these days it's gonna be a quick, final shift into the basement. It looks as though the house was built on wood pier footings that have deteriorated. A repair with some cement block posts has been made, but too little too late. This house needs a new foundation .... or demolition. Given the overall condition of the house, it may not be worth the investment in a foundation. We did not enter this property because the *power* here is still on and it could actually still be occupied. the roof is ancient, and has had a few gallons of patch poured down the valleys to stop leaks. Garage has collapsed under snow load and is beyond repair. Needs to come off, and from appearance it will come off "clean" without affecting the remaining structure. The common wall seems to be intact inside the house. Mid century standard ranch style home with a full basement. The main structure is absolutely solid and ready to be cleaned out and returned to use. There is a considerable amount of food garbage in the kitchen and some down the basement stairs. 2504	<b>Parcel ID:</b> 002-520-001-30; <b>Legal Description:</b> ASSESSOR'S PLAT OF RAYMBAULTOWN LOT 7. <b>Comments:</b> Straight, solid, updated wood frame home in Osceola near Calumet. The attached 2 car garage has collapsed under snow load. Inside, the house is clean solid and straight. We could not get to the basement as the door was stuck/swelled from being closed up, but it appears to have a boiler for heat and likely an upgraded 100A service based on the exterior elements. There are two outbuildings that aren't in the best shape ... the larger "guest house" type shed probably needs to come down when you demo the garage. There are 4 bedrooms (one walk-thru and three of them are tiny) and 1.5 rather spartan bathrooms. The front porch has been replaced but the roof above it needs a re-do. The porch to the side door is missing entirely. This is certainly worth rehabbing. Good bones. <b>Summer Tax Due:</b> \$263.12	56223 CALUMET AVE CALUMET;	\$2418.99	
2505	<b>Parcel ID:</b> 002-550-003-00; <b>Legal Description:</b> LOT 3 ASSESSOR'S PLAT OF SWEDETOWN RD <b>Comments:</b> This is the right side unit of an older, wood frame duplex in Swedetown. It appears as though no one has lived here regularly in maybe 40 years. The newest date we found on anything here is 1981 and it still has a rotary dial phone on the wall. The front porch is sagging to the degree that the door no longer closes as it is out of square. The only shower is in the basement and is conjured up from hoses and straight valves. The unit needs a roof, as it has failed at the outside edge about halfway back. There is some debris here that may belong to the other unit based on its age. One bedroom plus a walk-thru. Old mechanicals and electric could all use review. Overall, other than the front porch and roof issue, this is a fairly efficient and solid building. <b>Summer Tax Due:</b> \$266.45	56548 OSCEOLA RD CALUMET;	\$1934.19

(Right side only) and a small collapsing garage to its side. The exterior of this part of the building features fairly fresh vinyl siding and a good roof. The interior has not been updated, but it is clean and straight. One large bedroom upstairs. This one could be functional with just a little sprucing up! There *is* some mold and mildew creeping its way up from the basement from being closed up with no power. Home is spartan, but straight and solid. Three upstairs bedrooms. Garage has seen better days and needs to be repaired or removed before the snow gods eat it. The basement appears to have flooded during the rain event a couple three years ago and is muddy. Older roof is not leaking inside the house, but we would replace it before long. Older mechanicals, fixtures and HVAC. Just a hop, skip and jump to MTU from here. Power service here has been dropped by the utility. Is. Fabulous. Property. This is a collection of 6 tax parcels being sold as one. It is an entire peninsula in Torch Lake near Hubbell. And yes, you can get a boat from here to Lake Superior. A big boat. There is over 46 acres gross, with some subtraction from that for 3 ponds on the interior of the peninsula. There is *no* utility development here to date, but municipal water and sewer and natural gas pass near the base of these parcels. The uses for this property are endless: residential development, commercial/hotel/resort, corporate retreat, luxury campground or RV resort for snowbirds, or one heck of a private estate setting. We have NEVER offered a parcel with this kind of natural attraction. Ever. The lands here are filled bottomlands and are solid. The shores are firm. There is a private, gravel round that runs the perimeter of the peninsula. This was proposed as a part of the Eagle Point Reserve plat which was proposed but never finalized. If you intend to develop it other than as a single use property, you will want to seek local zoning guidance on the ability to build what you envision. This an absolutely breathtaking piece of property on a very very desirable body of water in the Keweenaw peninsula. The barn addition is not horrible old. Maybe 20 years? Has a 200A electric service. This probably makes a better shop or home business property than it does a "house" as it is rather dark and uninviting because many of the windows are now facing inward. Appears to have been last regularly occupied about 2017. Power service has been dropped. Fuel oil space heat. There is a side shed that has collapsed, but it does not impact the integrity of the house itself. A couple of broken windows. This is a pretty spartan place, but restorable with some effort. Upper floor full of rummage sale grade cast-off. Roof is older but not leaking inside that we could see. One bedroom down, one space upstairs that could easily be made into a nice large bedroom by removing a partition that is not load bearing. This parcel is approximately 35 net acres, after deducting the state trail from the math. It is a square 40, 1320' x 1320' more or less, and is bisected by State Trail 3. Located a couple three miles east of Laurium. The predominant forestry here is hardwoods ... oak and maple to be specific. The growth here is young, so this is not going to be saw log grade for a few years. It also has some substantial terrain challenges in places. We think that the state trail is a repurposed railroad right of way. BE AWARE: This is a state trail, not a county road. It is the only improved access but it may not be considered a "road". The land is almost entirely east of the trail and it drops sharply .... some places 50 feet or more ... from the trail to the land below. There is no power out here. This is beautiful property. There has been a fire in this home, in the very center of the house near what we presume was the location of a woodstove. May have been a kitchen fire ... can't tell too much not. The roof has been opened to extinguish and the house is open to the elements. There are several roof joists that will require replacement, but oddly even the underside of the roof deck is pretty much sloid and unmarked except for localized areas. The fire did not damage the structure beyond the kitchen and entry way of the house other than smoke and soot damage. the floor deck appears to be substantially solid. There is no evidence of the fire in the crawlspace from what we could see peering into the access hatch from the garage. This is certainly a restorable building. It has about 450 feet of frontage on the Iron River! There are two quonset huts here. Both are built on top of substantial concrete footing kneewalls. The first is about 30' wide x 50' deep with a wood frame addition to the rear which is in rough shape and open to the elements. We *think* the quonset section is slab on grade, but there is a layer of garbage all over the floor that makes it hard to be certain. The place has been taken over by raccoons, based on our analysis of the dung found in copious amounts. The second structure here is a quonset barn that is about 30' wide x 70' deep. It features a dirt floor and open air concept (no back wall). Both of these quonset huts appear to be well constructed, sturdy and solid as a rock. There is definitely value to these as rehabber projects. There is also a considerable amount of "man stuff" all over the property including blown out camper, heavy equipment, and lots of car parts and other things you can't throw away because you might need them someday. Know what we mean? If this property was all cleaned up and the huts refurbished, this could be a sharp place on the Iron River for weekend getaways! There is power service here and we *think* a well/septic, tho we could not be certain about the latter.</p> <p><b>Summer Tax Due:</b> \$352.30</p>	416 GIBBS CITY ROAD IRON RIVER;	\$4519.15

Most of the main level doors and windows have been boarded over, the foundation (what you can see) looks iffy, and the roof has a lot of deterioration at the eaves and soffits. Inside, we were not surprised that the floors slope in a few spots. It appears to have been used as warehousing for rummage sale grade property for a while. It is evident by the quality of the wood trim inside, especially on the second floor, that in its day that was a pretty sharp place. There is daylight peeking through the roof in numerous spots. We did not find either a heat source or the electric panel, but either could be buried inside. We did not see access to a basement, assuming there is one. Is this restorable? Perhaps. Origination/worst burn appears to be the back porch, which could be efficiently removed. There is some damage to the soffits and outer roof joist sections at the rear 15' or so of the structure, which would require some tear-off and replacement of that part of the roof. Otherwise the house itself seems to have survived with mostly smoke and water damage. Upper floor is unfinished (be careful, some wasps have moved in up there). Main floor has two small bedrooms. Modern efficient furnace. 100A electrical service. Kitchen cabinets may be restorable. As fire damage goes, this one is fairly restorable. It appears that this property has been unoccupied for almost 30 years. The interior is chopped up. What was probably a large well appointed home has been wood butchered into 3 or 4 apartments (and not well executed). Some of the original trim elements and hardwood floors remain, but the floor plan has been altered significantly and low grade bathrooms and kitchens stuck in strange places. Most of the main floor has been boarded. It does seem to be straight and solid .... and it has a good roof. The electric service has been dropped by the utility provider. The front porch roof is held up by 3 undersized 4x4 posts, one of which is teetering on the brink of popping out. We didn't investigate the cellar, but we did notice PVC vent piping .... which would suggest a modern furnace at least anticipated. Perhaps the property was undergoing a remodeling that stalled and stopped? We would consider this one a shell. It's not habitable as it is. Raised ranch on a block foundation. There are two parcels in this sale ... one includes the house and the other is an adjoining vacant parcel. There is debris in the yard that includes furniture and what appears to be carpet and padding which we assume came from inside. There are at least two dogs here that we saw. It appears to have had some rough use and we expect that it will require a thorough cleaning, repair and resurfacing/floor treatments. Because of the occupancy we did not have the opportunity to see the interior. WE noticed plastic over the interior face of windows as well ... not sure its purpose. The home is occupied so we did not get an opportunity to view the interior or the exterior in detail. The steel roof is older and the siding is weatherbeaten. Newer steel garage in fair condition. The yard is cluttered with all sorts of "manstuff" .... many of the things appearing to be incomplete, in disrepair and otherwise nonfunctioning. Home has potential to be rehabbed with some effort. It is past the end of Kemp Road ... you would need to go a few hundred feet further than the road has been built to reach this .... and that assumes that there is actually an easement for the road at all. If you'd like to buy it and demo it for us, we'd really appreciate it. Commercial service type of building with wood frame addition to the rear that is in full death throes of collapse. Downtown across from the VFW Post on Bank Street. This is beyond salvage or restoration. The two story wood frame part of the structure has collapsed, and the one story masonry garage type area has a concrete floor that appears to also be collapsing ... into the basement. There is just nothing here worthy of restoring. Structural Issues; Contamination Indicators; Dangerous Building; <b>Summer Tax Due:</b> \$404.87	317 BANK ST ISHPEMING;	\$3467.99	
3913	<b>Parcel ID:</b> 52-51-350-082-00; <b>Legal Description:</b> HARD ORE ADDITION LOT 82. <b>Comments:</b> Oooold wood frame home on a more modern block foundation. The roof and eaves are in rough condition, and the siding is in poor condition as well. A good amount of "manstuff" in the yard. We did not have luck getting in the front door because of the clutter and other things that are acting as a barricade. The inside is debris filled. With a substantial amount of work this could be restored, but you'll need to weigh the economics of that for yourself. Sharply sloping lot drops to basement grade at the rear of the structure for a walkout basement <b>Summer Tax Due:</b> \$148.39	221 MARQUETTE ST;	\$4672.10

One bedroom plus a walkthru second room. Newer kitchen cabinets. On a partial Michigan cellar accessed through a trap door in the living room. Not sure what they used as a primary heat source. Modern electric service. Could be a cute little weekender or starter home. There are a few deferred maintenance issues to fix, but overall it is a solid structure worthy of your efforts. <b>Summer Tax Due:</b> \$751.62	301 HAZEL ST ISHPEMING;	\$7835.65	
3915	<b>Parcel ID:</b> 52-51-558-014-00; <b>Legal Description:</b> ASSESSOR'S PLAT OF BANCROFT LAKE LOT 14. <b>Comments:</b> This home appears to be under the control/possession of the former owner, tho he may not be living in it. The lawn was freshly mowed and there are cars in the driveway that have not been there long. However we do notice that the power meter is gone, so it appears to be a storage use of personal property more than regular occupancy. 1.5 story home appears to be in generally solid condition, and it has an across-the-street view of Lake Bancroft. The foundation is skirted in steel, inferring that it is a wooden pier footing system. Newer vinyl siding and steel roof. Could be a nice place with a not too much work. Personal Property; Dnvi; <b>Summer Tax Due:</b> \$376.76	173 CLIFF ST;	\$5292.85	
3916	<b>Parcel ID:</b> 52-51-565-002-00; <b>Legal Description:</b> SUNCLIFFE NO. 1 LOT 2. <b>Comments:</b> This is a 1.94 acre parcel that lies off Greenwood Street. It is traversed by a power line easement which may reduce its effective size. It is roughly 425' along the road and 200' deep. Brush covered. This property is probably of the most value to the homeowners behind it on Suncliffe Drive that could split it and add it to their yards .... <b>Summer Tax Due:</b> \$302.16	1085 GREENWOOD ST ISHPEMING;	\$2526.20	

3917	<b>Parcel ID:</b> 52-51-571-015-00; <b>Legal Description:</b> ASSESSOR'S PLAT OF THE LAKE ANGELINE LOCATION LOT 15 <b>Comments:</b> Home has been through a fire. It appears to have been isolated to the rear room on the second floor and did not cause substantial damage elsewhere. May have been electrical or human caused. This is structurally sound, but will require a cleanout, cleanup, roof repair and some doors and windows in addition to a general resurfacing of affected areas. Hillside lot features a two car detached garage. This could be a decent family sized home in the right hands. 3 bedrooms. It is open to the elements with numerous broken windows and doors and a hole cut in the roof to extinguish whatever happened up there .... Fire Damage; <b>Summer Tax Due:</b> \$383.11	616 S PINE ST ISHPEMING;	\$5175.62	
3918	<b>Parcel ID:</b> 52-51-572-021-00; <b>Legal Description:</b> ASSESSOR'S PLAT OF EXCELSIOR LOCATION LOT 21. <b>Comments:</b> Large wood frame home in the Lake Angeline area. Has been vacant for some time, as the owner is in a nursing home. There is still personal property here that belongs to her. Home has a bad roof over the kitchen at the rear (one story section) but it all needs replacement. We are told that the home has "thousands" of hornets, and that they have a pretty established colony in the attic, and can be seen at the windows most of the summer. We didn't tempt fate by barging in with a can of bug spray in hand. Will probably require professional extermination. There have been repairs to the foundation on the left side, and more may be needed as there is a large hole in the ground on that side that could indicate an issue. Based on the service, we believe the home has old 60A electric service. Personal Property; Dnvi; <b>Summer Tax Due:</b> \$354.93	100 LOWER EXCELSIOR ST ISHPEMING;	\$5712.70

Downtown Negaunee has a thriving antiques market, and this could host many uses from a flea market, to farmers market, outdoor space for an adjacent business, or new construction. It could also serve as parking or even park uses. The possibilities are endless. <b>Summer Tax Due:</b> \$146.67	324 IRON ST NEGAUNEE;	\$4118.64	
3922	<b>Parcel ID:</b> 52-53-020-193-00; <b>Legal Description:</b> LOT 11 BLK 18 OF PIONEER IRON CO PLAT <b>Comments:</b> Symmetrical wood frame duplex just a block east of downtown Negaunee. We have sold this property before. Structurally, this is a solid building and it still retains most of its original trim and hardwood (maple) floors. The roof is in deplorable condition, and there is a large hold adjacent to the rear chimney ... and the front chimney has toppled cascading bricks down the roof. There is some serious rot in a few spots in the eaves. This is worthy of rehabilitation. Electrical has been updated as to the service panels, but not the branch wiring. The boilers are oooooold and likely could stand a replacement. Utilities are separately metered. There is likely classic lap siding under the mid-century aluminum. The worst roof damage is in the two bathrooms, which are at the rear center of the house, right under the hole in the roof (oh, the irony). The yard is overgrown. The property has no offstreet parking. Each apartment is three bedrooms and one bath. This could be a great income producer in the right hands with some sensitive renewal. But based on some of the elements here, we think this is a mid-century wood frame home that has been rehabbed. It has newer half log siding and a block foundation, but some of the doors and trim appear to be older. We saw one minor leak in the roof, at about the location of the SaTV dish. Two small bedrooms and a spartan bath/laundry. There is an exterior entrance to the basement, and it has a foundation wall that is caving in from exterior pressure. This stairway could be replaced or repaired without substantial work and the foundation issue does not impact the house itself. Basement has some water infiltration from the foundation wall issue. It appears that the furnace has been undergoing some sort of repair as there are "spare parts" around. Two car detached garage. Natural gas forced air heat and updated electrical. It appears this has been vacant a couple of years. This could be a real nice, cozy little place without a lot of work. 6100	<p><b>Parcel ID:</b> 051-007-270-00; <b>Legal Description:</b> LUDINGTON WELLS &amp; VAN SCHAICK COS 1ST ADD LOT 6 BLK 2 <b>Comments:</b> This is a large, full 2 story victorian era home in Menominee. It has been the victim of a mid-century remodeling that has pretty much wiped away every trace of its original trim and design, but it is still a rock solid structure worthy of your consideration. It needs a new roof in the near future. There are leaks in numerous places still active. It has a strange Biltmore enclosed porch addition and rear stairway on the rear, which was not well executed. You may want to consider removing it. It appears that the second floor may have been used as an apartment and there is a second kitchen up there. You'll want to consult with the zoning and building code officials about what the legality of using it as two apartments if that is your plan. Whether it is returned to single family use or used as an apartment property, it needs a complete clean-out, clean-up and resurfacing. We expect there are some nice wood floors worthy of refinishing under the grubby carpets here. This could be a nice, solid house in the right hands. Modern, efficient natural gas forced air furnace and a significant electric service. 3 bedrooms up, 2 living rooms, 2 kitchens, several bathrooms (some stuck in strange places). The floor plan is odd. This could be a nice place with some effort. This is located a block from the Menominee River and 1/4 mile from the Lake Michigan shoreline. Downtown is nearby. This one needs a roof fairly quick to stop further damage, which is not yet severe. A wall has been removed in the living room to make more room, but the hardwood floor wasn't patched back in. Large kitchen. 2 bedrooms down, and one very large bedroom upstairs in back. Older GE pushmatic breakers. There is weakness in the floors here where the roof has been leaking. Downstairs unit is 3 bedrooms and dated kitchen and bath. The floors roll and weave, suggesting a wood pier footing system. Its difficult to tell because the lot and house is quite overgrown. Access to the upper floor unit was hampered by a collapsed garage and its cascade of debris, as well as an exterior stairwell that looks just a little more than unsafe. There is no interior connection between the two floors, and no sign that there ever has been one .... suggesting that this was built as a duplex ... or has been used for one for decades. Has modern electric service. We had no trouble finding the furnace because it sits right next to the dining room table. Modern and efficient, even if aesthetically awkward. Roof is rough looking, but we did not see any signs of leaks that transmit to the main floor. This home probably has potential for rehabbing. Remove the garage rubble, straighten up the floor, resurface and go. There are two gas meters here, one for each unit. Common electrical that is not horribly old.</p> <p><b>Summer Tax Due:</b> \$311.40</p>	W3770 ELM AVE SPALDING MI 49886;	\$4198.50

And the pigeons haven't found this yet. And structurally it is very sound. The bad news is that it needs a roof and a complete redo. The only really questionable sections are in the dead center of the building, right over the main hallway, and the gymnasium, which is high bay, one floor. The roof joists in about a 10' x 10' area of the two story area will need to be uncovered, investigated and patched up. Most of the rest of the roof joist system looks pretty solid in the 2 story section.. The interior floors are concrete and have withstood the ravages of being vacant with ease, tho the hardwood skin has warped in many areas and will need to be removed. This is a very solid structure from outward appearance. Has about 8 large classrooms that would perhaps make great efficiency apartments or tourist suites. M/L. <b>Comments:</b> This sale includes approximately 1.2 acres of land, and all surrounding property is privately owned. Please do not trespass or disturb the neighbors if attempting to visit this property for research purposes. Three irregularly shaped parcels that sit offroad, but roughly directly behind 4317 Wolf Creek Road. This is roughly 1.2 acres, combined. These are "second tier" lots that sit one row behind the Wolf Lake roadfront parcels. There IS a "legal" shared, private access road to these that runs parallel to Wolf Creek Road, but we're told that someone further up the way has put a building on top of it assuming it was not being used. There IS a shared driveway that actually *does* lead to this parcel, but it is NOT a deeded access. So you'll either need to get the original access road unblocked, or get legal approval to use the shared private driveway from the people that own that land. The access road section leading to this parcel is overgrown and needs a new culvert. The camp shack itself is primitive. We expected to see Jimmer Negamanee and Ranger Tom come out the door. There is also a collapsed mobile home on the back end of these parcels, but the road leading to it is also *not* on this parcel, and you will need the neighbors permission to access it to remove it. The terrain here rolls heavily. It is nicely wooded property in a very quiet area just a few hundred feet from Misery Bay. This is a primitive cabin. It is a very private setting near much wildlife, with few neighbors. The main section of the home here may be older, but it has had some very well executed additions put on in the recent past including a steel roof and newer windows. The main structure is brick, and the additions are yet-to-be sided. Newer windows. What we *don't* see here is any evidence of electric service, even though the power lines run by the house at the road. No transformer at the pole, no drop line, no meter base. Inside, the camp is similarly well executed with nice timber wall treatments and vaulted ceilings. There is neither a well or septic here .... the bathroom setup is primitive. Power appears to be from a genset. The house is wired and a line runs to an outbuilding where we imagine the power plant was kept. The housing and other buildings here literally went up overnight in response to the sudden boom in workers needing a place to live. With the closing of the mine, so did the fortunes of the community. The housing resembles military base housing in its modular, copycat design. This unit has the blue tarp roof cover that indicates amateur efforts at repairing a bad roof. Inside, the house is damp. Most of the house has a slab-on-grade (cement) floor, but there is an area in the kitchen that apparently has a crawlspace below and that floor is *very* weak and someone is gonna go thru there pretty soon because of water damage. We did not see the hot water boiler for the heat, so it may be in that crawlspace. We anticipate there is freeze damage to the heating and plumbing systems. 3 bedrooms and a bath. Bad roof. Needs a resurfacing. 2 car attached garage has a *very* bad roof and mold is getting a foothold in here. 4808	<p><b>Parcel ID:</b> 08 352 001 00; <b>Legal Description:</b> LOTS 1 &amp; 2 BLK 2 SECOND ADD TO TOWN OF EWEN. <b>Comments:</b> Older, wood frame commercial building in Ewen, has been used as the local farm &amp; feed store for decades. It's in pretty dire need of a new roof. Structurally, the interior is pretty much one big wide open space, but has been partitioned into retail/office and warehouse spaces. 200A electrical service. Overhead door on the Railroad Street side, but we're thinking this is more for loading than pulling anything inside. It appears that the building (at least the back end) is built on wood pier footings. It has a wood, not concrete floor in the warehouse area. We would suggest getting a baseline environmental assessment within 45 days of purchase of this property, as farm stores have been known to be sources of contamination. We do *not* recommend speculating on commercial buildings in Ewen for "flipping". There is one across the street we have sold numerous times and we just get it back. If you have a use for warehouse space or storage .... or would like to convert it to a residence, this is a great little spot. Roughly 2500 sft here. The addition to the south/left side has some pretty good sags in it, but it's stable. First job here is a roof. This is the former Hinds V&amp;S Variety store building in Ewen. The first time we got this, it was still full of merchandise and in pretty solid shape. With time (and with the power off) the basement filled with water because the sump pump was no longer operating. With each succeeding foreclosure for taxes the building was in a little worse condition than the time before. It has been roughly 20 years since this building was regularly occupied and supervised. The doors, front and back, have both been kicked in a few times. It does appear that since the last visit, the interior has been cleaned out and electric service restored. The electric service and furnace (from memory) are in the basement and current condition unknown because of flooding. The front door is well barricaded, and the back one protected by a large, active hornets nest, so we'll let you make that journey if you're the successful bidder. The building is about 1400 square feet. One floor. Full basement. Indoor swimming pool? This is a very old wood frame building that was modernized we would guess in the 80's or 90's and has a good steel roof and decent looking vinyl siding. We do not recommend commercial buildings in this area for flipper speculation. But if you have a use for this, it's a solid structure with many years left. ## Instructions:

This form must be filed when there is a transfer of real property or one of the following types of personal property:

- Buildings on leased land.
- Leasehold improvements, as defined in MCL Section 211.8(h).
- Leasehold estates, as defined in MCL Section 211.8(i) and (j).

Transfer of ownership means the conveyance of title to or a present interest in property, including the beneficial use of the property. For complete descriptions of qualifying transfers, please refer to MCL Section 211.27a(6)(a-j).

## Excerpts from Michigan Compiled Laws (MCL), Chapter 211

**\*\*Section 211.27a(7)(d):** Beginning December 31, 2014, a transfer of that portion of residential real property that had been subject to a life estate or life lease retained by the transferor resulting from expiration or termination of that life estate or life lease, if the transferee is the transferor's or transferor's spouse's mother, father, brother, sister, son, daughter, adopted son, adopted daughter, grandson, or granddaughter and the residential real property is not used for any commercial purpose following the transfer. Upon request by the department of treasury or the assessor, the transferee shall furnish proof within 30 days that the transferee meets the requirements of this subdivision. If a transferee fails to comply with a request by the department of treasury or assessor under this subdivision, that transferee is subject to a fine of \$200.00.

**\*Section 211.27a(7)(u):** Beginning December 31, 2014, a transfer of residential real property if the transferee is the transferor's or the transferor's spouse's mother, father, brother, sister, son, daughter, adopted son, adopted daughter, grandson, or granddaughter and the residential real property is not used for any commercial purpose following the conveyance. Upon request by the department of treasury or the assessor, the transferee shall furnish proof within 30 days that the transferee meets the requirements of this subparagraph. If a transferee fails to comply with a request by the department of treasury or assessor under this subparagraph, that transferee is subject to a fine of \$200.00.

**Section 211.27a(10):** "... the buyer, grantee, or other transferee of the property shall notify the appropriate assessing office in the local unit of government in which the property is located of the transfer of ownership of the property within 45 days of the transfer of ownership, on a form prescribed by the state tax commission that states the parties to the transfer, the date of the transfer, the actual consideration for the transfer, and the property's parcel identification number or legal description."

**Section 211.27(5):** "Except as otherwise provided in subsection (6), the purchase price paid in a transfer of property is not the presumptive true cash value of the property transferred. In determining the true cash value of transferred property, an assessing officer shall assess that property using the same valuation method used to value all other property of that same classification in the assessing jurisdiction."

## Penalties:

Section 211.27b(1): "If the buyer, grantee, or other transferee in the immediately preceding transfer of ownership of property does not notify the appropriate assessing office as required by section 27a(10), the property's taxable value shall be adjusted under section 27a(3) and all of the following shall be levied:

- (a) Any additional taxes that would have been levied if the transfer of ownership had been recorded as required under this act from the date of transfer.
- (b) Interest and penalty from the date the tax would have been originally levied.
- (c) For property classified under section 34c as either industrial real property or commercial real property, a penalty in the following amount:
  - (i) Except as otherwise provided in subparagraph (ii), if the sale price of the property transferred is \$100,000,000.00 or less, \$20.00 per day for each separate failure beginning after the 45 days have elapsed, up to a maximum of \$1,000.00.
  - (ii) If the sale price of the property transferred is more than \$100,000,000.00, \$20,000.00 after the 45 days have elapsed.
- (d) For real property other than real property classified under section 34c as industrial real property or commercial real property, a penalty of \$5.00 per day for each separate failure beginning after the 45 days have elapsed, up to a maximum of \$200.00.
